

XAV-AX100 model Compatibility List for US

(General Notes)

1	- The cellular phone and audio device compatibility presented in this document is validated under certain conditions. These results do not guarantee proper operation of the device.
2	- Be sure to refer to the manual of each device for assistance in the operation/setup with the car audio unit.
3	- If unable to operate the Bluetooth function of the car audio unit, please follow these steps to reset the head unit: -Turn off the car audio unit. -(To ensure synchronization with the head unit, turn off and then turn
4	- Some devices require to initiate the connection by operating the device.
5	- <i>This unit is not able to connect with the Bluetooth devices, which have fixed Passkey ("Passcode", "PIN code", "Password", etc.) other than "0000".</i>
6	- The Bluetooth auto-connection function may not work with some devices. In this case, please manually connect according to the information provided in this document.
7	- If the user is unable to reconnect the to the car audio unit, please delete the pairing information of the cellular phone and then connect from device again.
8	- Sound interruption, noise and/or echo may occur during Handsfree talking or music streaming depending on the operation status, radio wave condition and utilization condition of the cellular phone or audio device.
9	- On some cellular phones, the permission when accessing the phone contacts(PBAP) will be asked when Handsfree is connecting to car audio unit. Please allow and accept the connection with the device.
10	- Some cellular phones may disconnect to the Bluetooth connection when the Handsfree mode is turned off (the call is transferred to the cellular phone). In this case, reconnect to the car audio unit through the cellular phone.
11	- Some characters of the contact information may not display properly.
12	- On some cellular phones, a contact name may get reversed when it is transferred.
13	- On some cellular phones, sometimes, the Contact List displayed on the headunit is different from the phone book of the cellular phone.
14	- On some cellular phones, upon making an outgoing call, the contact's name and number may not be displayed or does not match to the contact information saved on the phone.
15	- On some cellular phones, upon receiving an incoming call, the caller's name may not be displayed or does not match to the contact information saved on the phone.
16	- Battery reminder indication and signal strength indication may not correspond to those on the cellular phone.
17	- When the Source is set in Bluetooth Audio mode; if the car audio unit music replay operation is not working, operate the Bluetooth audio device directly for music replay.
18	- The elapsed-time counter may not be updated during playback on some Bluetooth audio devices.
19	- Bluetooth audio mode function and the display icon (Repeat/Shuffle, FW/Rev, Track) may not correspond to those on BT device.
20	- This document is subject to change without notice.

XAV-AX100 model Compatibility List for US

(Individual Notes)

*1 : Fast Forward and Fast Reverse function is not supported by this phone.

*2 : "Play Position" display is not supported.
