

Digital Paper

WebDAV Cloud Storage Configuration Guide

Sony Electronics Inc.

12/18/2015

V 1.2

- Digital Paper (with the 1.5.5 system software or later) comes integrated with support for the ShareFile cloud storage and file sharing service. Digital Paper can also be configured to work with other public cloud storage services that support the WebDAV file transfer protocol.
- When properly configured, a cloud storage service account can be synchronized with Digital Paper. PDF formatted documents within the account can be viewed, annotated, and deleted from the Digital Paper. Any changes made to documents on the Digital Paper will be reflected in the cloud storage service account.
- **Please Note: Digital Paper may not support all of the cloud storage service file management functions through WebDAV.**

Digital Paper Settings Screen

The screenshot shows the 'Network Drive Settings' screen with a 'Server Settings' dialog box overlaid. The dialog box contains the following fields:

- Server: (Tap to Enter)
- Port: (Tap to Enter)
- Username: (Tap to Enter)
- Password: (Tap to Enter)
- Show Password
- Sync folder (path on the server): (Tap to Enter)
- Destination folder (path on the server): (Tap to Enter)

At the bottom of the dialog box are 'OK' and 'Cancel' buttons. Below the dialog box is a QWERTY keyboard.

Configure the Digital Paper to communicate with the Box account through WebDAV.

From Digital Paper home screen go to **Settings** > **Server Settings** > **Network Drive Settings** and then select **Server Settings**.

Enter the following information into Server Settings of the Digital Paper:

Server: <https://dav.box.com/dav>

Port: 443

Username: (Box account e-mail address)

Password: (Box account password)

Sync folder: /

Destination folder: (empty)

- Enter following address into the **Server** field: <https://dav.box.com/dav>
- Enter the following information into the **Port** field: 443
- Enter the user name or email address of the Box account in the **Username** field.
- Enter the password for the Box account in the **Password** field.
- Enter folder path of the Box account that you would like to sync with the Digital Paper into the **Sync Folder** field. If you would like to sync all folders of the Box account, just enter a backslash “/”. All documents and sub folders within this path will be automatically synced between the Box account and Digital Paper.
- Leave the **Destination folder** path empty. When sending documents back to the Box account from Digital Paper, all account folders will appear as options.
