KOOV

Thanks for your interest in the KOOV Pilot Program.

KOOV™ is a fresh approach to learning robotics and programming, designed for elementary and middle school students. Made up of blocks, sensors, motors, and actuators, KOOV™ is a robotics and coding educational kit and application that teaches core concepts about design, coding, and robotics.

The KOOV™ Pilot Program provides educators with a hands-on experience tailored to your own classroom. Sony will provide you with KOOV™ Educator kits, a Get Started Training and provide you with resources to implement this tool in your classroom.

KOOV Pilot Program

Duration: 4 Weeks

Provided by Sony:

- 1-hour training with the KOOV™ team
- KOOV™ Educator Kits (up to 4)
- KOOV™ app
- Demo log-in (up to 4 accounts)
- Pilot Program Quick Start & Robot Guide

Program Requirements:

- Download and install KOOV app on your devices (macOS, PC, iOS, Chrome OS)
- Respond to occasional requests from the KOOV team for feedback, updates, customer service during the pilot
- Upon completion of program, fill out an exit survey, product review and participate in an exit interview
- Return Kits 1 week after the pilot ends
