WARNING
To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus.

Do not install the apparatus in a confined space such as a bookcase or built-in cabinet.

Do not block the ventilation slots or openings on the apparatus. These include slots and openings in the bottom (or base), back, and on the sides of the apparatus.

Do not expose the batteries (battery pack or batteries installed) to excessive heat such as sunshine, fire, or the like.

Always plug the power cord into an AC outlet near the equipment and within reach.

When not in use, always unplug the AC power cord from the AC outlet. Move the unit only with the AC power cord connected.

Keep this manual in a safe place for future reference.

WARNING
Owner’s Record
Model No. ICF-C7iP
Serial No.

The serial number of this product is located on the bottom. Record the model and serial number in the space below for future reference.

Model No. ICF-C7iP
Serial No.

Important Safety Instructions
1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use the attachments/accessories specified by the manufacturer.
12. Do not use the apparatus near airports.
13. Use only the cart, stand, tripod, bracket, or table specified by the manufacturer or sold with the apparatus.
14. When cleaning the apparatus, unplug it from the wall outlet and disconnect the power cord from the apparatus.
15. Keep the AC plug connected to an AC outlet at all times. (This apparatus is not designed to be switched off at the power source outlet.)

Battery
- Battery may explode if misused. Do not recharge, disassemble or dispose of in fire.
- Dispose of used battery consequently. Keep away from children.

Frequency
- 87.5 MHz – 108 MHz
- 0.1 MHz

NOTE
- The menu and VOL buttons have a tactile dot.

About the backup battery
To keep accurate time, this unit contains a CR2032 lithium battery inside of the unit to back up the real time clock system. The battery keeps the clock operating in the event of a power interruption.

Replacing the battery
When the battery becomes weak, “/” appears in the display. In a power interruption, the clock time would be lost. Replace the battery with a new CR2032 lithium battery. Use of another battery may cause a fire or explosion.

Replacing the battery
- 1. Keep the AC plug connected to the AC outlet, remove the screw that secure the battery holder at the bottom of the unit using a screwdriver, and remove the battery holder (See Fig. 3).
- 2. Insert the new battery holder back into the unit and secure it with the screw (See Fig. 3).
- 3. Insert the battery into the unit. Do not force the battery into the unit.

To cancel Automatic DST/Summer Time adjustment during the daylight saving time period:
The Automatic DST/Summer Time adjustment can be canceled.
Press and hold CLOCKS and SNOOZE/DATE/SLEEP OFF/SLEEP for 2 seconds while the clock is displayed.
Press and hold CLOCK to return to the display.

Notes:
The change of Automatic DST/Summer Time adjustment employed by the user (see “Setting the clock manually” for details) may be overridden by the user of the unit of standard time, and the user of the local area time, in the following cases:
- when the user of the unit of standard time wishes to cancel DST/Summer Time adjustment
- when the user of the local area time wishes to cancel DST/Summer Time adjustment

Setting the clock manually
1. Plug in the unit.
2. Press and hold CLOCKS for at least 2 seconds.
The year starts to flash in the display.
3. Press ALARM TIME SET + or – repeatedly to set the year.
4. Press CLOCKS.
5. Repeat steps 3 and 4 to set the month, day, hour, and minute, and then press CLOCKS.

Notes:
- You may not press CLOCKS for about 1 minute while setting the clock; the clock setting will be canceled.
- A calendar is displayed in the unit. When the data passes, the day of the week is automatically displayed.
- Mon = Monday, M = Monday, Tue = Tuesday, W = Wednesday, Thu = Thursday, F = Friday, Sat = Saturday.

Displaying the year and date:
Press SNOOZE/DATE/SLEEP OFF once for the date, and twice for the year.
After a while, the display will change back to the current time automatically.

Setting the brightness of the display
The brightness of the display is adjustable by pressing BRIGHTNESS/TIME ZONE.

Playing the radio

Manual tuning
1. Press RADIO BAND to select the AM or FM band.
2. Press and hold TUNING + or – to tune in a station.
3. Adjust the volume using VOLUME + or –.

Tuning in to a station
The unit automatically scans AM or FM stations.
1. Press RADIO BAND to select the AM or FM band.
2. Press and hold TUNING + or –, and scan through the frequency bands.
   -oran shows down (the frequency bands are scanned downwards from the currently tuned frequency).
   - When a station is received, scanning stops.

Notes:
- When tuning into an iPod, the unit auto-tunes to the saved iPod stations.
- If you set your iPod to “on shuffle” mode, the iPod may not display the AM/FM bands.

Improving the reception of the radio
To improve the reception of the radio:
1. Connect the supplied AM loop antenna to the unit.
   - If you connect the supplied AM loop antenna (supplied), the antenna must be in a non-metallic area.
   - If the supplied AM loop antenna is not used, the radio will not receive AM broadcasts.

Playing an iPod
The stereo is able to control an iPod.
1. Press and hold iPod/Phone to connect the unit with your iPod.
The unit automatically checks the iPod's contents.
If it is connected, the iPod’s contents are automatically displayed.
If it is not connected, the iPod’s contents are not automatically displayed.
2. Press and hold iPod/Phone again to disconnect the iPod.

Notes:
- When using an iPod, you may not be able to use the iPod in cases such as the following:
  - If the iPod cannot be recognized by the unit
  - If the iPod's contents are not displayed by the unit
  - If the iPod is not connected to the unit
- Turn off the unit before connecting your iPod.

To use the unit as a battery charger
You can use the unit as a battery charger.

Setting the alarm
This clock is equipped with 5 alarms.
Set a preset alarm by using the iPod to preset the alarm, make to set the alarm (see “Setting the alarm” M/F mode)”.

To set the alarm
1. Press and hold ALARM TIME SET A + or – repeatedly until the desired hour appears in the display.
2. Press the hour key to set the hour.
3. Press the minute key to set the minute.

Notes:
- The alarm will sound again at the same time the alarm setting is set.
- If you select “- –” , jump to step 5.
- You can press the volume key to turn the alarm sound up or down.
- You can press ALARM TIME SET B to set alarm.

- You can press the volume key to turn the alarm sound up or down.
- You can press ALARM TIME SET B to set alarm.

To return to the broadcast
Press RADIO BAND.

Notes:
- To keep the radio band in the display, press RADIO BAND continuously.

To stop the alarm
Press OFF/ALARM RESET once.

To turn off the radio
Press OFF/ALARM RESET again.

To deactivate the alarm
Press OFF/ALARM RESET for more than 2 seconds.

Connecting external equipment
To listen to sound
1. Connect the iPod in jack of the unit to the line out jack or headphone jack of the external equipment using the audio connecting cables (supplied).

Notes:
- Refer to also the connected equipment’s manual.
- The supplied audio connecting cables may not be used with some external equipment. In this case, use a cord suitable for the equipment you are using.
- When you listen to the radio with external equipment, the volume of the alarm will not exceed the volume level of the equipment.
- When you turn off the unit, the volume will be set to the last level.
- When you turn off the unit while the alarm is set, the alarm will be canceled.
