The BRAVIA® Full HDTV Experience

Thank you for choosing Sony! Your new BRAVIA® TV opens the door to the “Full HDTV Experience.” This document will help you get the most out of your TV.

Please take a moment to register your TV at:
U.S.A.: http://productregistration.sony.com
Canada: http://www.SonyStyle.ca/registration

Four Steps to a Full HD Experience
Set, Source, Sound, and Setup.

1 Set
Now that you have made the best selection in LCD TV technology, be sure to remove all accessory contents from the packaging before setting up your TV.

2 Source
To experience the stunning detail of your BRAVIA TV, you need access to HD programming.
• Upgrade your signal or content source to high-definition (HD) by contacting your HD service provider.

This TV displays all video input signals in a resolution of 1,920 dots x 1,080 lines.

3 Sound
Complete the high-definition experience with a BRAVIA Sync™ surround sound system or A/V receiver from Sony.

4 Setup
Install your TV and connect your sources. See page 6 for sample connection diagrams.

To help assure the highest quality for your HD experience, use Sony HDMI (High-Definition Multimedia Interface) cables.

To learn more about HDTV, visit:
U.S.A.: http://www.sony.com/HDTV
Canada: http://www.SonyStyle.ca/hd

• Receive over-the-air HD broadcasts with an HD-quality antenna connected directly to the back of your TV.
• Visit www.antennaweb.org for more information on antenna selection and setup.
• Discover the wealth of entertainment now available on super-high resolution Blu-ray Disc™ player and other Sony HD equipment.

Size AAA batteries (2)
USB Wireless LAN Adapter UWA-BR100 (1)
(for KDL-55EX711/46EX711 and KDL-
60EX701/52EX701/46EX701 models)

*1 The 32” and 40” models require assembling.
Refer to other leaflet to assemble the Table-Top
Stand.
*2 The Stand Rear Cover is attached to the Table-
Top Stand for 46, 52, 55 and 60 inch models.
*3 Please refer to the model name printed on the
remote control.

Guidelines for Remote Control
• Point your remote control directly at the IR
sensor located on your TV.
• Make sure that no objects are blocking the
path between the remote control and the IR
sensor on your TV.
• Fluorescent lamps can interfere with your
remote control; try turning off the fluorescent
lamps.
• If you are having problems with the remote
control, reinsert or replace your batteries and
make sure that they are correctly inserted.

Inserting batteries into the
remote control

1 Remove the protection sheet.
2 Push and slide the cover upward.
Setting up your TV

Some TV models are packaged with a detached Table-Top Stand so you can mount your TV to a wall right away. If you are not mounting the TV to a wall, you will need to attach the Table-Top Stand. You will need a Phillips screwdriver and the supplied screws to complete the task. Look for the attachment instructions provided with the TV.

Be sure to consider the following while setting up your TV:

- Disconnect all cables when carrying the TV.
- Carry the TV with the adequate number of people; larger size TVs require two or more people.
- Correct hand placement while carrying the TV is very important for safety and to avoid damage.

- Ensure your TV has adequate ventilation, see page 13.
- For best picture quality, do not expose the screen to direct illumination or sunlight.
- Avoid installing the TV in a room with reflective wall and floor materials.
- Avoid moving the TV from a cold area to a warm area. Sudden room temperature changes may cause moisture condensation. This may cause the TV to show poor picture and/or poor color. Should this occur, allow moisture to evaporate completely before powering the TV on.

Attaching the Table-Top Stand (except KDL-60EX700/60EX701/60EX703 models)

Refer to the supplied Table-Top Stand instruction leaflet for proper attachment.

1. Gently slide the TV unit onto the Table-Top Stand and align the screw holes.
   - Do not put stress on the LCD panel or the frame around the screen.
   - Be careful to not pinch your hands or the AC power cord when you install the TV unit to the Table-Top Stand.

2. Use the supplied screws to attach the TV unit to the Table-Top Stand.
   - If you use an electric screwdriver, set the tightening torque at approximately 1.5 N·m (15 kgf·cm).

3. After all the screws are tighten cover the Table-Top Stand with the supplied Stand Rear Cover.
   - You can attach the TV to the Table-Top Stand with the Stand Rear Cover on with the exception of the 32” and 40” models. The 32” and 40” models must follow the above instructions.
Connecting the TV

The following chart shows the high-definition (HD) and standard-definition (SD) video formats supported by your BRAVIA TV inputs.

or
Sony strongly recommends taking measures to prevent the TV from toppling over. Unsecured TVs may topple and result in property damage, serious bodily injury or even death.

Preventing the TV from Toppling

- Secure the TV to a wall and/or stand.
- Do not allow children to play or climb on furniture and TV sets.
- Avoid placing or hanging items on the TV.
- Never install the TV on:
  - slippery, unstable and/or uneven surfaces.
  - furniture that can easily be used as steps, such as a chest of drawers.
- Install the TV where it cannot be pulled, pushed, or knocked over.
- Route all AC power cords and connecting cables so that they are not accessible to curious children.

Recommended Measures to Secure the TV

Consider the following measures when securing your TV to a TV stand (not supplied).

1 Secure the Stand for the TV

Make sure the TV stand can adequately support the weight of the TV. Use two angle braces (not supplied) to secure the stand. For each angle brace use the appropriate hardware to:
- Attach one side of the angle brace to the wall stud.
- Attach the other side to the TV stand.

2 Secure the TV to the Stand

Use the optional hardware listed below (not supplied):
- M4 × 16 machine screw (screwed into the TV’s Table-Top Stand)
- A screw or similar (attach it to the TV stand)
- Rope or chain (strong enough to support the weight of the TV). Make sure that there is no excess slack in the rope or chain.

An alternative way to secure the TV is with an optional Sony Support Belt Kit.

Contact Sony Customer Support to obtain the optional Support Belt Kit by providing your TV model name.
- For United States call: 1-800-488-7669 or visit: www.sony.com/accessories
- For Canada call: 1-877-899-7669
Running initial setup

1. Complete your cable connections before proceeding with the **Initial Setup**. Connect the TV to your nearest power outlet.

2. Check the **ENERGY SAVING SWITCH** setting is on (●).

3. Press **POWER** on the TV. When you switch the TV on for the first time, the **Language** menu appears on the screen.

4. Follow the instructions on the screen.
   - The **ENERGY SAVING SWITCH** must be on (●) to set the clock and obtain program information for the TV Guide.
   - **Home** mode sets the TV to display the settings optimized for home viewing (this setting is ENERGY STAR compliant).

5. Select **Continue** to scan for available channels and enable the **TV Guide On Screen**® feature. If you receive channels from a cable box or satellite receiver and do not wish to use the TV’s built-in tuner, select **Skip**. Selecting **Skip** will disable the **TV Guide On Screen** feature, which is only available when the TV’s tuner is used.
   - If you skip the channel scan while in the setup menus, TV Guide will be disabled.
Detaching the Table-Top Stand from the TV

Remove only the screws marked with ★ on the TV.

• KDL-32EX710/32EX700 models must remove the stand rear cover prior to detaching the Table-Top Stand.
• Do not remove the Table-Top Stand for any reason other than to install corresponding accessories on the TV.
• When installing the TV on a wall, remove the four screws from the rear of the TV. (They are fastened in the screw holes for wall mounting.) Be sure to store the removed screws in a safe place, keeping them away from children.
• When attaching the Table-Top Stand again, be sure to fasten the four screws (previously removed) to the original holes on the rear of the TV.
• Do not hold by the Stand Rear Cover while carrying the Table-Top Stand to prevent dropping the stand which may cause an injury or damage to the property.
Using a Wall-Mount Bracket

Your TV can be mounted on a wall using a Wall-Mount Bracket (not supplied) out of the box as packaged. Some larger size TV may require detaching the Table-Top Stand; see “Detaching the Table-Top Stand from the TV” (page 12).

Prepare the TV for the Wall-Mount Bracket before making cable connections.

For product protection and safety reasons, Sony strongly recommends that you use the Wall-Mount Bracket designed for your TV and the installation should be performed by a Sony dealer or licensed contractor.

- Follow the instruction guide provided with the Wall-Mount Bracket for your model. Sufficient expertise is required in installing this TV, especially to determine the strength of the wall for withstanding the TV’s weight.
- Be sure to use the screws supplied with the Wall-mount bracket when attaching the mounting hooks to the TV set. The supplied screws are designed so that they are 8 mm to 12 mm in length when measured from the attaching surface of the mounting hook. The diameter and length of the screws differ depending on the Wall-mount bracket model. Use of screws other than those supplied may result in internal damage to the TV set or cause it to fall, etc.
- Be sure to store the unused screws and Table-Top Stand in a safe place until you are ready to attach the Table-Top Stand. Keep the screws away from small children.
- Read the supplied Safety Booklet for additional safety information.

Installing the TV Against a Wall or Enclosed Area

Make sure that your TV has adequate ventilation. Allow enough space around the TV as shown below. Avoid operating the TV at temperatures below 41 °F (5 °C).

**Installed with stand**

- Leave at least this much space around the set.

**Installed on the wall**

- Never install the TV set as follows: Air circulation is blocked.

- Inadequate ventilation can lead to overheating of the TV and may cause damage to your TV or cause a fire.
To watch TV

To watch programs

1. Turn on the TV.
   - Check the ENERGY SAVING SWITCH setting is on (●).
   - Press POWER on the TV or on the remote control to turn on the TV. (You may use the button located on the front or back of the remote control.)

2. Select a TV channel.

To use the Guide
Press GUIDE to display the TV Guide On Screen to view scheduled programs or to select a program to watch. Press again to exit the Guide. Use with 0-9 and ENT to select digital channels. For example, to enter 2.1, press 2, 1, and ENT.

To use the TV features
Press HOME to display TV Home Menu/XMB™ to access TV Settings and other media and network related content.

Press OPTIONS to display a list of convenient functions and menu shortcuts. The Options menu items vary based on current input and/or content.
To use i-Manual

Your BRAVIA TV comes with an on-screen manual. You can browse your i-Manual anytime you need to find the varieties of convenient functions.

1 Press i-MANUAL.

2 Press ▲▼◄► to navigate and select items.

- Welcome to i-Manual
- BRAVIA TV Features
- Watching TV
  Introduces convenient features such as TV Guide, Favorites, etc.
- Using the Home Menu
  You can find how to customize your TV settings, etc.

- Fun Features with Connected Equipment
  Introduces how to connect and enjoy optional equipment.
- Parts Description
- Troubleshooting
  You can find solutions for your problems.
- Index

※ Images and illustrations may differ from what you are watching on this TV.
Troubleshooting

The TV will indicate any problems with the **STANDBY** indicator flashing in red.

**When the STANDBY indicator is flashing**

The self-diagnosis function is activated.

1. Count how many times the **STANDBY** indicator flashes between each three second break.
   
   For example, the indicator may flash three times, go off for three seconds, then flash again three times.

2. Press **POWER** on the TV to turn it off, disconnect the AC power cord, and inform your dealer or Sony service center of how the indicator flashes (number of flashes).

**When the STANDBY indicator is not flashing**

1. Check the items in the tables below. (Also refer to “Troubleshooting” in the i-Manual.)

2. If the problem persists, contact Sony Customer Support (information provided on the front cover).

| There is no picture (screen is dark) and no sound. | • Check the antenna/cable connection.  
• Connect the TV to the AC power, and press **POWER** on the TV.  
• If the **STANDBY** indicator lights up in red, press **POWER** on the remote control. |
| Tiny black dots and/or bright dots appear on the screen. | • The screen is composed of pixels. Tiny black dots and/or bright dots (pixels) on the screen do not indicate a malfunction. |
| **General** |                       |
| The TV’s power cannot be turned on. | • Check to see the (●) mark on the **ENERGY SAVING SWITCH** is pressed. |
| The TV turns off automatically (the TV enters standby mode). | • Check if the **Sleep Timer**, **Timer**, or **Idle TV Standby** is activated.  
• The **Auto Shut-off** function may be set to **On**. If **Auto Shut-off** is activated and TV receives no signal, the TV will automatically enter standby mode in 15 minutes. Check **Auto Shut-off** is activated under **Eco** feature of this TV. |
| The remote does not function. | • Replace the batteries.  
• Your TV may be in **SYNC** mode. Press **SYNC MENU**, select **TV Control** and then select **Home (Menu)** or **Options** to control the TV. |
| The “Parental Lock” password has been forgotten. | • Enter 4357 for the PIN code. (PIN code 4357 is always accepted.) |
How to Care for Your BRAVIA

Safety is very important, please read and follow the safety documentation (Safety Booklet) separately provided.

Unplug the TV and other connected equipment from the wall outlet before you begin cleaning your TV.

- Wipe the LCD screen gently with a soft cloth.
- Stubborn stains may be removed with a cloth slightly moistened with a solution of mild soap and warm water.
- If using a chemically pretreated cloth, please follow the instruction provided on the package.
- Never use strong solvents such as a thinner, alcohol or benzine for cleaning.
- Do not plug in the TV into the wall outlet until the moisture from cleaning has evaporated.

The TV should also be placed on a stable surface to prevent it from toppling over (see page 10). If you have young children or pets at home, check regularly to insure the TV is securely fastened.

#### Optional accessories

Connecting cables / Support Belt Kit / Wall-Mount Bracket

*1 For LAN connections, use a Category 7 10BASE-T/100BASE-TX cable (not supplied).
*2 Download Acquisition Mode (DAM) is used for software updates and/or collecting data for TV Guide On Screen.
• Optional accessories availability depends on its stock.
• Design and specifications are subject to change without notice.
For customers in Canada
This Class B digital apparatus complies with Canadian ICES-003.

FCC Related Information
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Safety and Regulatory
To prevent radio interference to the licensed service, this device is intended to be operated indoors and away from windows to provide maximum shielding. Equipment (or its transmit antenna) that is installed outdoors is subject to licensing.

High power radars are allocated as primary users (meaning they have priority) of 5250-5350 MHz and 5650-5850 MHz and these radars could cause interference and/or damage to this device. This device uses 5 GHz band for wireless LAN communication and the maximum gain of the antenna in this device is 6 dBi.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body (excluding extremities: hands, wrists and feet). This device and its antenna(s) must not be co-located or operating with any other antenna or transmitter except Grant condition.

Note
This television includes a QAM demodulator which should allow you to receive unscrambled digital cable television programming via subscription service to a cable service provider. Availability of digital cable television programming in your area depends on the type of programming and signal provided by your cable service provider.

Compatible optional accessories information

</table>

<table>
<thead>
<tr>
<th>Sony Wall-Mount Bracket Model No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>SU-WL500</td>
</tr>
</tbody>
</table>

Use with other optional accessories* may cause instability and could result in property damages or injury.

* For instructions on using the Wall-Mount bracket with your TV please go to http://esupport.sony.com for your TV model and download “Additional Information for Using Sony Wall-Mount Bracket”.

To Customers
Sufficient expertise is required for TV installations. Be sure to subcontract the installation to a Sony dealer or licensed contractor and pay adequate attention to safety during the installation.
