If your "WALKMAN" does not function as expected, try the following steps to troubleshoot:

1. Check information on the issue in “Troubleshooting” in the support Web sites.
2. Find the symptoms of the issue in “Troubleshooting” in the support Web sites.
3. Press and hold the BACK/HOME button until the Home menu appears.
4. Restore the built-in flash memory by selecting “Format Built-in Memory” on the Maintenance menu.

If the approaches listed above fail to resolve the issue, you may be able to resolve some issues by:

- Charging the battery.
- Importing data.
- Exporting data.
- Initializing the flash memory.
- Connecting the USB cable (supplied) to the computer.

Connecting your "WALKMAN" via a USB hub or USB extension cable may not work. Connect your "WALKMAN" directly to your computer using the USB cable (supplied).

Pressing the RESET button with a small pin, etc. may resolve some issues.

Before resetting your "WALKMAN," check that no song, video, etc. is being played back. You cannot charge the battery when the battery is charged in an ambient temperature out of the range of 5 °C (41 °F) to 35 °C (95 °F).

You have not used your "WALKMAN" for more than a year. The operating system installed on the computer is not compatible with "WALKMAN." You may be able to resolve some issues by:

- Reinstalling the software by using the installer.
- Connecting your "WALKMAN" to another USB connector on your computer properly.
- Using the supplied USB cable.

Note
- When initialization finishes, [Memory formatted.] appears.
- If you want to retain the files stored in memory prior to formatting, and then export any necessary data,
- Import the data you want to keep and export it. The imported data will remain untouched.
- Importing data takes some time depending on the amount of data imported.
- If the imported data can’t be displayed or played, consult your nearest Sony dealer.

To charge your "WALKMAN," connect your "WALKMAN" to your computer with the USB cable (supplied). The USB connector on your computer may have a different shape. Consult your nearest Sony dealer regarding this product.

Excessive sound pressure from earphones and headphones can cause hearing loss. At a high volume outside sounds may become inaudible. Avoid listening to the personal audio player at a high volume for extended periods of time.

At high volume, prolonged listening to the personal audio player can cause hearing loss. Earphones adapted to your unit that appear below.

Model No. ________________________

Precautions
- Use a small pin, etc. to make voice recordings.
- If you press and hold the OPTION/PWR OFF button, the screen turns off and your computer does not recognize your "WALKMAN." The [Connected USB.] message after connected to a computer. This is not a problem.
- To charge your "WALKMAN," connect your "WALKMAN" to your computer with the USB cable (supplied). The USB connector on your computer may have a different shape. Consult your nearest Sony dealer regarding this product.
- Reconnect the USB cable, restart the computer, and then reconnect it. If the problem persists, disconnect the USB cable (supplied) before restarting the computer.

Use of this radio equipment is not allowed in the geographical area within a radius of 200 km of air traffic control towers.
