**Step3** Copying and Viewing Photos and Videos

Copy photos/videos to the PCS

1. When using an Android device, tap [ ] and select [Copy to PCS].
   - When using an iOS device, tap [ ] and select [Copy from Camera Roll] and go straight to step 3 below.
2. Select [Smartphone/Tablet] as copy source.
3. Select [Select Image].

Select photos and videos you want to copy to the PCS by:
- Select [Select Image].
- Select [Smartphone/Tablet] or [NFC]
- Touch your NFC-enabled smartphone or tablet on the NFC mark (NFC touch point) located on the right corner of the PCS.

The smartphone or tablet performs the selected task automatically.
1. Tap [ ] and select [Settings].
2. Select [NFC].
3. Select the required task from the menu.
   - Launch the application
   - Launch the application and copy one file (touch marked).

Touch your NFC-enabled smartphone or tablet on the NFC mark (NFC touch point) located on the right corner of the PCS.

If your smartphone or tablet supports NFC one-touch function.

New photos and videos can be copied to the PCS with NFC one-touch function.

Connecting to your home network will let you use the following features:
- System software or application update
- Online help
- Connection to TV through DLNA

Copy photos/videos from Camera Roll and go straight to 3 below.

**Connecting to Your Home Network**

Option 1: Connect using the Wi-Fi Protected Setup (WPS) button.

1. Hold down the WPS button on PCS (for about 5 seconds) until the illumination LED blinks light blue.
2. Within 2 minutes, press the WPS button on the wireless LAN router.
3. When connection is complete, the light blue illumination LED stops blinking and remains lit.
   - Refer to the instruction manual of your wireless LAN router for the location of its WPS button.
   - If connection fails, refer to the Help Guide.

**Option 2:** Connect from the PCS Manager app if your wireless LAN router does not have a WPS button.

1. Tap [ ] or [ ] and select [Settings].
2. Select [Wireless LAN].
3. Select the SSID of your Home network router under [Internet Connection].
4. Enter the password if required and connect.
5. Confirm the message of changing network structure. If yes select [OK]. It starts connecting. Wait approximately two minutes to confirm connection.

PCS Manager screen display

The screen display of your PCS may differ from the illustrations in this guide.
