1 About the camera
The camera is designed to be connected to a smartphone via Wi-Fi. You can transfer images to a smartphone on the spot just after shooting.

Check the supplied items
• Rechargeable battery pack NP-BN1 [1]
• Micro USB cable [1]
• Wrist strap [1]
• Smartphone attachment [1]
• Quick Start Guide (this manual) [1]
• Reference Guide [1]

Names of main parts
1 Power button
2 Microphone
3 Multi terminal
4 RESET button
5 Power/Charge/Movie lamp
Green: Power ON
Orange: Charging
Red: Recording a movie
6 Zoom lever
7 Flash button
8 Display panel
• Indicates that a memory card is not inserted
• Indicates remaining battery capacity
9 Wi-Fi button
10 Tripod socket
11 Hook for the wrist strap

2 Charging the battery
Charge the battery before using the camera. To charge, use the micro USB cable (supplied) to connect the camera to a computer.

Turn off the power when the battery is being charged.
If you do not have a computer, use the AC adapter AC-UD10 (sold separately).

Note: Make sure that the memory card is correctly oriented when inserting.
Memory cards are used for storing pictures of [20M] (default setting) or video.

3 Inserting a memory card
Insert a microSD memory card (sold separately) or Memory Stick Micro™ (M2) media (sold separately) before shooting.

4 Installing PlayMemories Mobile™
Install PlayMemories Mobile to the smartphone before using the camera. If PlayMemories Mobile is already installed, update it to the latest version.

For details on PlayMemories Mobile, refer to the support website:
http://www.sony.net/pmm/

5 Connecting the camera and a smartphone via Wi-Fi
The connection method varies depending on the type of smartphone. Confirm your smartphone type and connect via Wi-Fi.

Android (compatible with NFC)
1 Turn on the power of the camera.
2 Start PlayMemories Mobile on the smartphone.
3 Select the SSID as printed on the label on the back side of the camera’s battery cover.
4 Input the password, as printed on the same label (first time only).

Connecting the camera and a smartphone via Wi-Fi (continued)

Why doesn't the camera charge?
Turn the power off.

Why is the power lamp flashing red?
Memory card is not inserted correctly. Insert it in the correct direction (see the section 3 "Inserting a memory card").

How can I correct the date/time?
When Wi-Fi connection between the camera and the smartphone is made, the date/time on the camera is automatically set to that of the smartphone.

How can I return to the default setting?
Turn the power off.

Why is the password required again?
Depending on the model of your smartphone, the password may be required again even if you have set the password. In this case, perform the connecting operation again (see the section 5 "Connecting the camera and a smartphone via Wi-Fi").

Q & A

Shooting images

Screen of PlayMemories Mobile
1) Switching shooting modes
2) Shutter/movie button
3) Settings
4) Switching between still image/movie
5) Zoom

Shooting images (continued)

8 Terminating
End PlayMemories Mobile to return to the Home screen.
Turn off the power of the camera.

Refer to the Help Guide
The Help Guide is an online manual. Refer to the Help Guide when you would like to know further details, settings and operations of PlayMemories Mobile, and precautions.

http://rd1.sony.net/help/en/ILC/1440/it/ja

Android (NFC-compatible)
1) Touch the N mark of the smartphone against the (N mark) of the camera. Powered on: Continue to touch (1-2 seconds) without moving until PlayMemories Mobile starts up. Powered off: Keep the camera and a smartphone touching until the lens of the camera extends.

Phone
1) Turn on the power of the camera.
2) Input the password, as printed on the same label (first time only).
3) Confirm the connection to the SSID of the camera.
4) Go back to the Home screen, then start PlayMemories Mobile.

Attaching the camera to a smartphone
Attach the camera to a smartphone after fixing the smartphone attachment (supplied) to the camera.

6 Attaching the camera to a smartphone
1) Fix the camera to the attachment.
2) Put the camera into the slot of the attachment, align the white marks, then rotate the attachment until it clicks.
3) Open the clamps of the attachment.
4) Extend the clamps and attach the camera to a smartphone.
5) Do not tangle the camera around with a smartphone attached to it, as the smartphone may slip out of the attachment.
6) Make sure no buttons are caught when the smartphone is attached.

7 Shooting images
1) Start PlayMemories Mobile on the smartphone.
2) Select the SSID as printed on the label on the back side of the camera’s battery cover.
3) Power button
4) Input the password, as printed on the same label (first time only).
5) Confirm the connection to the SSID of the camera.
6) Go back to the Home screen, then start PlayMemories Mobile.

Q & A

Why hasn't the power of the camera turned on unexpectedly?
If an NFC-enabled smartphone is close to the camera, the power may turn on accidentally. This is not a malfunction.

Why are movies not transferred to my smartphone after shooting?
Movies are recorded on a memory card, but are not transferred automatically.

Removing the smartphone attachment
Slide the removal lever to the lens side and rotate the attachment.

Removing the smartphone attachment
1) Touch the N Mark of the smartphone against the (N mark) of the camera.
2) Powered on: Continue to touch (1-2 seconds) without moving until PlayMemories Mobile starts up.
3) Powered off: Keep the camera and a smartphone touching until the lens of the camera extends.

Turn the power off.

Why is the power lamp flashing red? Memory card is not inserted correctly. Insert it in the correct direction (see the section 3 "Inserting a memory card").

How can I correct the date/time? When Wi-Fi connection between the camera and the smartphone is made, the date/time on the camera is automatically set to that of the smartphone.

How can I return to the default setting? Turn the power off.

Why is the password required again? Depending on the model of your smartphone, the password may be required again even if you have set the password. In this case, perform the connecting operation again (see the section 5 "Connecting the camera and a smartphone via Wi-Fi").

How does the camera charge? Turn the power on.

Why is the power lamp flashing red? Memory card is not inserted correctly. Insert it in the correct direction (see the section 3 "Inserting a memory card").

How to correct the date/time? When Wi-Fi connection between the camera and the smartphone is made, the date/time on the camera is automatically set to that of the smartphone.

How can I return to the default setting? Turn the power off. Why is the power lamp flashing red? Memory card is not inserted correctly. Insert it in the correct direction (see the section 3 "Inserting a memory card").

How do I change the settings such as image size? You can make changes on the settings screen of PlayMemories Mobile.

Why are movies not transferred to my smartphone after shooting? Movies are recorded on a memory card, but are not transferred automatically.

How can I return to the default setting? Turn the power off.

Why is the password required again? Depending on the model of your smartphone, the password may be required again even if you have set the password. In this case, perform the connecting operation again (see the section 5 "Connecting the camera and a smartphone via Wi-Fi").

How to correct the date/time? When Wi-Fi connection between the camera and the smartphone is made, the date/time on the camera is automatically set to that of the smartphone.

How can I return to the default setting? Turn the power off.

Why is the password required again? Depending on the model of your smartphone, the password may be required again even if you have set the password. In this case, perform the connecting operation again (see the section 5 "Connecting the camera and a smartphone via Wi-Fi").
