Read these instructions.

Before using the unit

To turn the power on or off
Press \( \text{POWER} \) (page 3).

To adjust the volume
Press \( \text{VOLUME} + \) or \( \text{VOLUME} - \) (page 3).

To listen through headphones
Connect headphones to the headphones jack. To protect your hearing, avoid listening at maximum volume over long periods of listening through headphones.

To turn on the bass enhancement function
Press \( \text{SCN} \) (page 4).

Playing a music disc
Press \( \text{CD PLAYER/PAUSE} \) (page 4) to start playback.

Listening to the radio
Press \( \text{FM} \) or \( \text{AM} \) to turn on the power of the unit.

To adjust the antenna for optimum reception

Listening to preset radio stations

Press \( \text{FM} \) or \( \text{AM} \) repeatedly to select the FM or AM band.

4

Press \( \text{FM} \) or \( \text{AM} \) repeatedly to select the band.

To change the frequency display
Press \( \text{TUNE} \) or \( \text{TUNER} \)(page 3). When an FM stereo broadcast is received, “ST” or “STEREO” appears on the display.

To improve radio reception

Place the unit near a wall or other obstacle to improve reception.

To store the station
Press \( \text{MEMORY} \) (page 3).

If another station is already assigned to the preset number for the station you want to store, press \( \text{MEMORY} \) to store the station in another preset number.
