**STEP 1: Connecting to an AC outlet**

Connect the unit to a Wi-Fi network by using the supplied AC Adaptor and AC power cord.

- Make sure that a LAN cable is not connected. A wired and wireless connection cannot be used at the same time.
- A wired and wireless connection cannot be used at the same time.

**STEP 2: Connecting to your Wi-Fi network**

A Wi-Fi network enables you to easily enjoy music stored in wireless devices in your home.

**Connecting by Wi-Fi Protected Setup™ (WPS)**

- Required items: Android smartphone or iPhone/iPad, Wi-Fi router (not supplied: Wireless LAN adapter for the compatible Android smartphone or iPhone).

1. Press and hold the WPS button on the wireless router.
2. Press and hold the Wi-Fi Protected Setup™ (WPS) button of the unit until it beeps (about two seconds).
3. Within about 30 seconds, press the Wi-Fi Protected Setup™ (WPS) button of the unit.

Depending on the wireless router, press and hold the Wi-Fi Protected Setup™ (WPS) button for a few seconds. 

- If the LINK indicator lights up in orange, the Wi-Fi network connection is complete.
- The LINK indicator lights up in orange after about 30 seconds.

For details, see the Help Guide.

**STEP 3: Listening to music via Wi-Fi**

To listen to music via Wi-Fi, SongPal is recommended to be used on your smartphone or iPhone.

**Installing SongPal on your smartphone/iPhone**

1. Tap [SongPal] on your smartphone/iPhone to start the application, and then follow the onscreen instructions to install the application.
2. After selecting music, start playback and adjust the volume.

**Listening to music from this unit using SongPal**

Required items: Android smartphone/iPhone/iPod touch installed with SongPal

1. Set up SongPal on your smartphone/iPhone.
2. Connect your smartphone/iPhone to this unit via BLUETOOTH. Before the connection, set the BLUETOOTH feature on your smartphone or iPhone.
3. Control the unit from your smartphone/iPhone using SongPal.
4. Select the song you want to listen to, and then start the playback.

**Listening to music from this unit using Google Cast**

Required items: Android smartphone/iPhone/iPad/iPod touch installed with SongPal

1. Set up Google Cast and then select an application to install it.
2. Touch [SongPal].
3. Touch the Cast icon, and then select [SongPal Link].
4. Start playback on the application, and adjust the volume.

**Other methods for listening to music via Wi-Fi**

* For more details about the following connections, playback methods, and other information, refer to the Help Guide.
* Bluetooth is a technology designed for wireless connections. For more information about Bluetooth, refer to the Help Guide.

**BLUETOOTH**

- You can listen to music from a BLUETOOTH device even without a wireless connection.
- Some models allow you to connect two BLUETOOTH devices at the same time.
- If you connect the HDMI cable (supplied) to a device, you can control the sound from your unit using the SongPal Link application.
- Connected components

**SongPal Link**

You can listen to your favorite music with various styles by wireless speaker combinations.
