Digital Paper System

Quick Start Guide

Getting Started

Checking the supplied items

Check the following items are present.

• Digital Paper device [1]
• Quick Start Guide [1]
• Replacement tip [1]
• Tip puller [1]
• USB cable [1]
• Quick Start Guide (PDF document) [1]
• Touchscreen Cleaner [1]

Tip
For approved accessories, refer to the following Digital Paper product page:
http://www.sony.net/dp/sp/press/

Initial setup

Set up the Digital Paper device (hereafter referred to as "the device") and your computer according to the instructions displayed.

1. Turn on the device.
2. Set a stylus according to the instructions on the screen.
3. Turn on the computer and connect to the Internet.
4. Download Digital Paper App from the following site and install on the computer.
   http://www.sony.net/dpapp

Digital Paper App is required to transfer documents (PDF files).

5. Start Digital Paper App and connect the supplied USB cable to the micro USB connector of the device and the USB connector of the computer.
6. Set the computer according to the instructions displayed by Digital Paper.

Documents can be transferred only between the device and your computer according to the instructions displayed.

For approved accessories, refer to the following Digital Paper product page:
http://www.sony.net/dp/sp/press/

Parts and controls

Digital Paper device

Important Information

Do not operate the device or watch the display while driving a vehicle, operating heavy machinery, or while you are in any way distracted.

Avoid water and moisture

• Note that condensation may form temporarily in cases such as when the player is moved quickly from a low-temperature environment to a high-temperature environment or used in a room that has a heater just turned on. Condensation occurs in a phenomenon in which moisture in the air adheres to surfaces such as metal panels, etc., and then changes to liquid. If condensation forms in the device, turn it off until the condensation dissipates. If you use the device with condensation present, a malfunction may result.

• Do not get the device wet.

Charging the device

• Heat build-up in the device may cause malfunction or damage.

Cleaning the device

• Clean the device with a soft cloth, such as a cleaning cloth for eyeglasses. Make sure that there is no dust or dirt on the cloth, as the device may be damaged.

Regulatory Information

This device complies with the Declaration of Conformity (DoC) and the FCC Identify (ID) based on the FCC Rules.

The FCC mark based on RULES FOR VOLUNTARY CONTROL MEASURES.

The marks and registration numbers of the radio wave and radio communication acts.

Precautions

Handling the device

• If the device causes interference to radio or television reception, turn off the device and move it away from the radio or television.

• Be careful not to drop the device into a sink or other container filled with water.

• Do not leave the device in humid locations or bad weather, such as in the rain or snow.

• Do not get the device wet.

• Use the device in a cool environment, as doing so may cause overheating.

• Do not unplug the power cord, pull on the power cord, or unplug the device from the power outlet by force.

• Do not apply excessive pressure to the touchscreen. The color or brightness may become uneven and may cause the device to malfunction.

• Do not keep the stylus pressed while the stylus is not in use.

• Charge the device only with the charger that came with it. Using a different charger may damage the device or cause a malfunction.

• Do not leave the device exposed to direct sunlight or high temperature for a prolonged period, as this may cause a malfunction.

• Never leave the device exposed to high temperature, such as in a parked car in the sun or under direct sunlight.

• Always charge the device at room temperature (5 °C to 35 °C (41 °F to 95 °F)). If the room is too hot or cold, disconnect the USB cable before charging.

• Do not charge the device in a cold environment, as the screen may change at a slower speed. This is not a malfunction.

• Never leave the device on an unstable surface.

• Do not leave the device near medical equipment and feel anxious, consult your doctor before you use the device.

• Do not use the stylus if it is damaged or deformed.

• Do not press the RESET button with a fragile object (pencil lead, etc.).

• Do not remove the battery yourself.

• Do not use the stylus or the stylus button during operation.

• Do not keep the stylus pressed while the stylus is not in use.

• Do not press the stylus tip with a fragile object (pencil lead, etc.).
Security
You can lock the screen lock on the device. When the screen lock is on, entering the lock password will be required when the device is woken from sleep mode. To set the lock password, press the HOME button, then tap [Settings] > [Screen Lock] > [Screen Lock] > [Unlock]. The lock password should be between 4 to 20 alphanumeric characters and symbols.

- Do not create a lock password that other people could easily guess. Change your password periodically.
- Be sure to remember your lock password. If you forget your lock password, contact the Sony Support Center. The device may be unlocked. However, all documents stored on the device will be deleted.
- When the device is woken from sleep mode, you can unlock the screen lock with the FeliCa card, cellular phone that supports FeliCa, smartphone and so on. For details, refer to the Help Guide.

Wi-Fi connectivity

- The wireless LAN functionality has passed FCC certification and complies with the interoperability specifications established by WPA/WPA2 (Wi-Fi Alliance).

Wireless feature

- Turn off the wireless feature when the device is in a location where radio communications are prohibited. You may not obtain permission from the appropriate authorities before enabling the wireless feature in such places.
- Turn off the wireless feature in health care facilities where any regulations posted in such areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be affected by radio frequency (RF) energy which is generated by wireless communications.
- Do not use your device near medical equipment without first obtaining permission to do so.
- General notes on using the Wi-Fi (Wireless LAN) function:
  - In some countries or regions, use of Wi-Fi products may be restricted by the local regulations (e.g. limited number of channels).

Usage environment of NFC

- The device is placed on a metal desk, it may not function properly, such as failing to communicate with the FeliCa card or device that support FeliCa. In this case, keep a few centimeters between the device and the metal desk.

Applications on the device

Disclaimer: No event will SONY be liable for any financial damage, or loss of profits, including claims made by third parties, arising out of the use of the software supplied with this device.

Sony is not responsible for incomplete recording/downloading or damaged data due to problems of the device or computer. 

- Copyrights prohibited reproducing the software in the manual accompanying it whole or in part, or renting the software without the permission of the copyright holder.
- Due to continued efforts to improve quality, software specifications may be changed without notice.
- Operation of this device with other than that provided by Sony is not supported by the warranty.
- Depending on the types of the text and characters, the text shown on the device may not be displayed properly. This is due to:
  - The capacity of the device.
  - The device is not functioning normally.
  - Content information is written in a language or character that is not supported by the device.

- We do not guarantee all languages will be able to be displayed properly on your device.
- User-created characters and some special characters may not be displayed.

Touchscreen

- Do not press the screen or screen frame strongly or rub the screen. When operating the device, touch it softly.
- You can use the stylus while resting your hands on the touchscreen. When the stylus is near the touchscreen, the finger operation is inactive.

RECYCLING LITHIUM-ION BATTERIES

Lithium-Ion batteries are recyclable. You can help preserve our environment by returning your used rechargeable batteries to the collection and recycling location nearest you.

For more information regarding recycling of rechargeable batteries, visit www.sony.com/Electronics/environmental-management/batteries

The device Disposed Reference

The built-in rechargeable battery of the device is recyclable. Do not remove the battery yourself; consult the Sony Support Center.

For customers in the USA

FCC Compliance Statement

Note:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This DPT-RP1 has been tested and meets the FCC RF exposure guidelines when used with the Sony Corporation accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.
