

## Removing/Reinstalling the Battery Pack

### To remove the battery pack

You will lose all unsaved data if you remove the battery pack while your VAIO computer is on or in Sleep mode and not connected to the AC adapter.

Be sure to turn off the computer before removing the battery pack.

- 1** Turn off your VAIO computer, disconnect the power cord and all connection cables, and close the LCD screen lid.
- 2** Turn your VAIO computer over and remove the bottom cover.  
Unscrew the two screws (1) with a cross slot screwdriver, then slide the cover in the direction of the arrow (2).

- Use a screwdriver (such as a precision screwdriver) that matches the size of the screws.
- Do not remove or loosen the screws that are not specified to be removed, as it may cause your VAIO computer to malfunction.
- Be careful not to drop the removed screws through the openings in and around the battery compartment into your VAIO computer.
- Be careful not to touch the wires and the projections in and around the battery compartment.

Continued on the back side. 

- 3** Remove the battery pack.  
Pull the tab on the battery compartment in the direction of the arrow (1), and while holding the tab, lift the battery pack in the direction of the arrow (2).

Slide the battery pack away from the compartment in the direction of the arrow (3).

## To reinstall the battery pack

Install the battery pack into the battery compartment on the bottom of your VAIO computer.  
**Be sure to install the battery pack before using the computer.**  
**Do not use the computer without installing the battery pack, as it may cause the computer to malfunction.**

- 1** Slide the battery pack into the battery compartment in the direction of the arrow.

- 2** Push the battery pack down into the battery compartment.  
The battery pack clicks into place in the compartment.

- 3** Replace the bottom cover.  
Push the cover in the direction of the arrow (1) so that all the tabs on the cover fit in place, then replace and tighten the two screws (2).

Your VAIO computer is designed to operate only with genuine Sony battery packs.
