

Notes on Using the Refresh Function

In the supplied **Recovery, Backup and Troubleshooting Guide** and **User Guide**, you find the following sentence in recovery related topics:

"The 64 GB or 128 GB SSD equipped models do not support the refresh function."

However, the 128 GB SSD equipped models purchased from the Microsoft Store support the refresh function.

Refer to the **Recovery, Backup and Troubleshooting Guide** and **User Guide** for more information on the refresh function.
