Warning

Owner's Record
The model and serial numbers are located at the rear.
Record these numbers in the spaces provided below.
Refer to these numbers whenever you call upon your Sony
dealer regarding this product.

Model No. Serial No.

To prevent fire or shock hazard, do not expose the unit to rain or moisture.

Information
This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in
strict accordance with the manufacturer's instructions,
may cause interference to radio and television
reception. It has been type tested and found to comply
with the limits for a Class B computing device in
accordance with the specifications in Subpart J of Part
15 of FCC Rules, which are designed to provide
reasonable protection against such interference in a
residential installation. However, there is no guarantee
that interference will not occur in a particular
installation. If this equipment does cause interference to
radio or television reception, which can be determined
by turning the equipment off and on, the user is
encouraged to try to correct the interference by one or
more of the following measures:
Reorient the receiving antenna
Relocate the equipment with respect to the receiver
Move the equipment away from the receiver
Plug the equipment into a different outlet so that
equipment and receiver are on different branch
circuits.
If necessary, the user should consult the dealer or an
experienced radio/television technician for additional
suggestions. The user may find the following booklet
prepared by the Federal Communications Commission
helpful:
"How to Identify and Resolve Radio-TV Interference
Problems". This booklet is available from the U.S.
Government Printing Office, Washington, DC 20402,
Stock No. 004-000-00345-4.

Difference between CDP-391 and CDP-291
This instruction manual covers CDP-391 and CDP-291.
Their performance and operation are identical except that
the CDP-291 is not supplied with a remote commander
and that, therefore, the CDP-291 does not have those
functions activated only by the remote commander, which
are indicated by a \(\text{\textbullet}\) mark in this instruction manual.
However, if you have a remote commander for the Sony
stereo system, you can activate the functions on that
commander.
Introducing This CD Player

Enjoy listening in various playing modes
You can select the playing modes among the following:
- Continuous play (page 7) — The entire disc is played once.
- Program play (page 10) — Selections are played in your desired order.
- Shuffle play (page 9) — Selections are played in a random order.
- Repeat play (page 13) — One or all selections are played repeatedly.

Editing your own tapes
- You can fade in and out the play when making your own tape recording. — Fade in/Fade out (page 14)
- You can locate the portion with the largest volume (the peak of the input level) to adjust the recording level. — Peak search (page 15)

CUSTOM EDIT function
- You can confirm the total playing time while choosing the selections to be programmed. — Program edit (page 10)
- The player can program selections automatically to fit in a desired duration. — Time edit (page 12)
- You can stop the play, fading out at the time desired. — Time fade (page 14)

Precautions

On safety
- Operate the unit only on 120 V AC, 60 Hz.
- Should any liquid or solid object fall into the cabinet, unplug the unit and have it checked by qualified personnel before operating it any further.
- Unplug the unit from the wall outlet if it will not be used for a long time. To disconnect the cord, pull it out by grasping the plug. Never pull the cord itself.
- As the laser beam used in this compact disc player is harmful to the eyes, do not attempt to disassemble the cabinet. Refer servicing to qualified personnel only.

On operation
When the unit is not used, turn the power off, to conserve energy and to extend the useful life of your unit.

Important
Since the CD system boasts a wide dynamic range, the peaks of high level inputs are recorded with high fidelity, and the noise level is very low.
Do not turn up the volume while listening to a portion with no audio signals or very low level inputs if you do, the speakers may be damaged when a peak level portion is played.

For detailed safety precautions, see the leaflet "IMPORTANT SAFEGUARDS".

If you have any questions or problems concerning your unit, please contact your nearest Sony dealer.

In the instructions starting from page 7, buttons on the remote commander are indicated in parentheses.
Installing the CD Player

Notes on Installation

- Place the unit in a location with adequate air circulation to prevent internal heat build up in the unit.
- Do not place the unit on a soft surface, such as a rug that would block the ventilation holes on the bottom.
- Do not install the unit:
  - near heat sources such as radiators or air ducts.
  - in a place subject to direct sunlight, excessive dust, mechanical vibration or shock.

On moisture condensation
If the player is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lens inside the unit. Should this occur, the player will not operate. In this case, remove the disc and leave the player turned on for about an hour until the moisture evaporates.

Preparing the Remote Commander (CDP-391 only)

Installing Batteries

1

2

R6 (size AA) × 2

On battery life
- About half a year of normal operation can be expected when using the R6 (size AA) batteries.
- When the batteries are run down, the remote commander will not operate the unit. In this case, replace both batteries with new ones.

Notes on the remote commander and remote control operation
- Keep the commander away from extremely hot or humid places.
- Avoid dropping any foreign objects into the commander casing, particularly when replacing the batteries.
- Avoid exposing the remote sensor to direct sunlight or lighting apparatus. Such exposure can cause a malfunction.
- To avoid damage caused by battery leakage and corrosion, remove the batteries when the commander will not be used for a long time.
Connecting the CD Player

Notes on Connection

- Turn off the power of each unit before making connections.
- Connect the AC power cord last.
- Be sure to insert the plugs firmly into the jacks. Loose connection may cause hum and noise.
- Leave a little slack in the connecting cord to allow for inadvertent shock or vibration.
- Cord plugs and jacks are color coded. Red plugs and jacks are for the right channel (R) and white ones for the left channel (L).

Connecting to an Amplifier

[Diagram of connecting a CD player to an amplifier and speaker system]
Playing a Disc

Before playing a disc, turn on the amplifier and set the input selector to the CD player position.

**Playing the Entire Disc**

1. Press the **POWER** button to turn on the CD player.
2. Insert the disc into the player with the printed side up.
3. Press the play button to start playback.

**To stop play**

To stop for a moment during play, press ▶️‖ (or ‌‌). Press ‌‌ (or ‌‌) again, to resume play.

To stop play, press ‌‌.
To stop play and open the tray, press ‌‌.

**To play a 8cm (3-inch) CD**

Place it on the inner circle of the tray. If the disc is provided with an adaptor, first remove it. Do not put a normal CD (12cm/5-inch) on top of an 8 cm CD.

**Notes on handling discs**

- To keep the disc clean, handle the disc by its edge. Do not touch the surface.

- Do not stick paper or tape on the disc.

- Do not expose the disc to direct sunlight or heat sources such as hot air ducts, nor leave it in a car parked in direct sunlight as there can be a considerable rise in the temperature.

- After playing, store the disc in its case.

*If you turn on the power with a disc in the tray*

Play begins automatically from the beginning of the disc. By connecting a commercially available timer, disc play can be started at any desired time.

*What is this indication?*

**no d IS C**

This indication appears when there is no disc in the disc tray.
Playing a Disc

Locating a Particular Selection

You can locate the beginning of a desired selection.

To locate sequentially
To locate the beginning of the current or preceding selection
- Press ►►◄◄ (or ◄◄) as many times as required.
- Keep ◄◄◄◄ (or ◄◄) pressed to skip selections.
  (Operable during the stop mode only, when using
  the button on the player.)

To locate the beginning of a succeeding selection
- Press ►►►► (or ►►) as many times as required.
- Keep ►►►► (or ►►) pressed to skip selections.
  (Operable during the stop mode only, when using
  the button on the player.)

To locate directly
Press one of the numeric buttons [1] to [10] on the remote
commander to enter the desired selection number.
If a selection number is greater than 10, use the [10] and
e.g. To play from selection No.22
  Press ►►►► [1] [0] [2] [2]
  To play from selection No.30
  Press ►►►► [1] [0] [3] [10]

Locating a Particular Point in a Selection

You can locate a particular point in the disc during play.

To search quickly while monitoring the sound
To go ahead at high speed
Keep ►►►► (or ►►) pressed during play and release at
the desired point.
To go back at high speed
Keep ◄◄◄◄ (or ◄◄) pressed during play and release at
the desired point.

To search quickly by observing the display
Press ►►►► (or ■ ●), then keep ►►►►, ◄◄◄◄ (or ►►,◄◄) pressed. The search speed will increase, but there will
be no sound. Find the desired point by observing the display.
Press ►►►► (or ■ ●) again at the desired point.

When you press ◄◄◄◄ (or ◄◄) during play
The player locates the beginning of the selection.

When ◄◄ is displayed
If you continuously press ►►►► (or ►►) at the end of the disc,
"◄◄" appears in the window. Press ◄◄◄◄ (or ◄◄,◄◄) to return
to normal indication.
If you continuously press ◄◄◄◄ (or ◄◄) at the beginning of the
disc, play begins automatically from the first selection.

Information Display

Each time you press TIME during play, the display changes
to give you the following information.

A Elapsed playing time
B Remaining time in a selection
  If the current selection number is over 20, "--- ---" is
displayed.
C Remaining time of the disc
  (not displayed during shuffle play)

If you press TIME during stop
The total time and total number of selections will be displayed.
If a program is stored, the total number of programmed selections
will be displayed.
Playing in a Random Order
- Shuffle Play

You can have the selections played in a random order. The unit will play all the selections, or just the selections you desire.

1. Press CONTINUE and enter the unit into the normal playing mode. “SHUFFLE” disappears from the window.

2. To delete a selection, press the numeric button on the remote commander for that selection. “OFF” will be displayed in the window. You cannot delete a selection which is being played. To choose a selection number over 10, see page 8.

3. To put back a selection which you have deleted, press the numeric button for that selection. “On” will be displayed in the window.

4. To put back all the selections you have deleted, press ■ during the stop mode.

When delete shuffle play ends
The unit returns to the shuffle play mode for the remaining selections.

If you press SHUFFLE during play
Shuffle play begins after the current selection is over.

What is this indication?

This indication appears while the player is “shuffling” the selections.
You can make a program, which can be divided into programs A and B by the remote commander, designating up to 24 selections in the order you want them to be played. At the same time, you can adjust the total playing time of the program. The unit will play the disc according to your program. This function is convenient for editing tapes.

---

### Designating the Playing Order – Program Edit

1. **PROGRAM**
2. Choose selection and check the time. If the time is not satisfactory, choose another selection.
4. Repeat steps 3 and 4.
5. Play the program

---

### Programming Selections Directly

1. **PGM**
2. Press selection number in desired order.*
3. Play the program

---

*To choose a selection number over 10, see page 8.*
To stop playing
Press ■.
You can play the same program repeatedly as long as you
do not cancel program play or erase the program.

To cancel the program play
Press CONTINUE and enter the unit into the normal playing
mode.
The program will be erased.

To erase the entire program
Press ■ once during stop; twice during play.
The program is also erased when you press ▲ or turn off the
unit.

To make a program for editing a tape
You can divide your program into programs A and B by
inserting a pause between them. Use this function to make a
program for both sides of the tape at one time.

1 Program the selections for program A.
2 Press ■ on the remote commander. “B” in the tape
indicator and “P” will be displayed in the window and the
total playing time will be reset to 0.
3 Program the selections for program B.
When you start playing the selections, program A will be
played and then the unit will pause with the chosen
selections for program B lighted in the window. Set the tape
to the beginning of side B, then press ▶■ (▶ or ▶). The
selections for program B will be played.

To check your program
Press CHECK. The first selection in the program will be
displayed. When CHECK is pressed during play, the
selection being played is displayed.
Each time you press CHECK, the next selection in the
program will be displayed. The tape indicator, at this time,
will show you which side of the tape these selections have
been programmed into.
After the last selection, “End” will be indicated and the
display will soon return to the initial status in one second.

To change your program
You can make the following changes before starting play.

To erase the last selection, press CLEAR.
Each time you press CLEAR, the last selection in the
program will be erased.

To add a selection to the end of the program, just
press the numeric button for that selection. You can
add a selection also during play or pause.

To delete a selection, press CHECK repeatedly until
the undesired selection is displayed. Then press CLEAR.

To change the order, press ■ during stop to erase the
program. Then repeat the programming procedure from the
beginning.

What is the tape indicator?
During program play, the tape indicator shows you which side of the
tape is being played.

A ■: Side A is being played.
B ■: Side A has been played and the unit is in the pause
mode, or side B is being played.

If “- - - -” is displayed instead of the actual time
- you have programmed a selection number over 20.
- the total time is more than 100 minutes.

To check the number of programmed selections
Press TIME during the stop mode. The number of programmed
selections will be displayed in the window.

To check the remaining time
Press TIME once to see the remaining time of the selection being
played; twice to see the total remaining time; once more to return to
the initial display.
If you have divided the program into A and B by inserting a pause
between them, the display shows the remaining time until the pause.
If you have programmed a selection number over 20, “- - - -” is
displayed instead of the actual time.
You can designate a time and the unit will make 2 different programs of selections each fitting within that period. Use this function, by designating the length of your tape, for editing both sides of a tape.

* To adjust the second
Pressing ▶- ▶ (or ▶- ▶) allows you to adjust the time by 10 second intervals.

To play the program
Press ▶- ▶ (or ▶- ▶).
The selections for side A will be played and then the unit will pause. Set the tape to the beginning of side B, then press ▶- ▶ (or ▶- ▶). The selections for side B will be played.

To check or erase the program and to stop or cancel the play
See the preceding page.

To include desired selections in the program
1 Make your own program of the desired selections. See page 10 for instructions.
2 Follow the above procedure. Just designate the length of your tape; you need not subtract the length of your program. The unit will place your selections at the beginning of its program and add other selections to fit the remaining time.

If your disc has more than 20 selections
Selections over number 20 cannot be programmed with the time edit function; use the programming procedure on page 10.

To designate a different time for each side
Execute steps 1 to 4, then execute steps 3 and 4 for the other side.
Playing Repeatedly
– Repeat Play

You can repeat one or all selections during play.

A To repeat all selections
Press REPEAT once. “REPEAT” appears.
(The unit will repeat the selections in the current play mode after completing the first play.)

<table>
<thead>
<tr>
<th>Play mode</th>
<th>Selections to be repeated</th>
</tr>
</thead>
<tbody>
<tr>
<td>Continuous play (page 7)</td>
<td>All the selections</td>
</tr>
<tr>
<td>Program play (page 10)</td>
<td>All the programmed selections in the same order</td>
</tr>
<tr>
<td>Shuffle play (page 9)</td>
<td>All the selections that the unit reshuffles</td>
</tr>
<tr>
<td>Delete shuffle play (page 9)</td>
<td>All the remaining selections that the unit reshuffles</td>
</tr>
</tbody>
</table>

B To repeat the selection being played
Press REPEAT again. “REPEAT 1” appears.
(Not operable during shuffle, delete shuffle, or program play.)

C To cancel repeat play
Press REPEAT again. “REPEAT 1” disappears.
The following functions are convenient for editing your own tapes.

**Fading in/Fading out**

You can have the play fade in or fade out from 2 to 10 seconds.

**To designate the fading duration**
1. Press FADER during the stop mode.
2. Designate the fading duration within the range of 2 to 10 seconds by pressing \[ \llll/ \rrrr/ \rrrr/ \rrrr \] (or \[ \llll/ \rrrr/ \rrrr \]).
   No designation makes the fading duration 5 seconds long.

**To end the play fading out**
Press FADER when you want to start fading out.
"\[ \llll/ \rrrr/ \rrrr \]" flashes in the window, and play fades out for the designated duration and enters the pause mode.

**To restart the play fading in**
Press FADER.
"\[ \llll/ \rrrr/ \rrrr \]" flashes in the window, and play fades in for the designated duration.

---

**Fading Out at the Desired Time – Time Fade**

You can have the play fade out at the end by designating the play duration. Once the time fade is set, it functions twice for editing both sides of a tape. You can change discs without cancelling this function and enjoy it in any play mode.

1. Press EDIT/TIME FADE twice during the stop mode.
   "TIME FADE" is displayed in the window.

2. Set the desired play duration, using the TIME SET button.
   TIME SET button – Useful when using commercial tapes (46-, 54-, 60-, 74- and 90-minute tapes).
   Each time you press TIME SET, the play duration for one side of the tape is displayed as follows.
   
   \[ 23.00 \rightarrow 27.00 \rightarrow 30.00 \rightarrow 37.00 \rightarrow 45.00 \rightarrow \ldots \]

3. **To adjust the second**
   Each time you press \[ \llll/ \rrrr/ \rrrr/ \rrrr \] (or \[ \llll/ \rrrr/ \rrrr \]), the set time changes by 10 second intervals.

3. To start play, press \[ \rrrr/ \rrrr \] (or \[ \rrrr \]).
   Before the unit enters the pause mode at the set time (the tape indicator changes to B), play starts to fade out from 2 to 10 seconds according to the fading duration you have designated.

**To start play for the other side of the tape**
Press \[ \rrrr/ \rrrr \] (or \[ \rrrr \]), or FADER. (Pressing FADER starts the play fading in.)
When this play ends, time fade is cancelled.

**If you want to start the play fading in**
1. Press \[ \rrrr/ \rrrr \] twice (or \[ \rrrr \] once) during the stop mode.
   The unit enters the pause mode.
2. Press EDIT/TIME FADE once.
   "TIME FADE" is displayed.
3. Set the desired play duration, following the step 2 above.
4. To start play, press FADER.
   Play will start fading in and end at the set time fading out.

**To cancel time fade**
- Press EDIT/TIME FADE again.
- Press FADER during play.
- Press PEAK SEARCH during the stop mode.
- Do manual search during play.

**To display the time remaining until the time set**
Press TIME twice. In the shuffle play mode, however, the time remaining until the fade-out time is not displayed.
Locating the Portion with the Largest Volume
--- Peak Search

You can locate the portion with the highest input level to adjust the recording level.

Before starting play, press PEAK SEARCH. “PEAK” appears in the window and starts blinking as the peak search begins functioning. It takes time for the unit to carry out the peak search. On completing the search, the unit starts repeating the portion with the peak volume.

While the unit is repeating the peak portion
- Press ► II (or II) to enter the unit into the pause mode at the beginning of the first selection.
- Press ► (on the remote commander) to start play from the first selection.

To cancel the peak search
Press ■. “PEAK” disappears from the window.

Note
During program mode, the peak search will not function if nothing is programmed.

On peak search
The unit scans input levels of the whole CD and determines the peak (maximum input level) among them. The peak determined with this function is sometimes slightly different from the real one. In addition, portions determined as a peak may vary each time this function is carried out even on the same CD. The difference between the determined and the real peak is, however, negligible enough for you to adjust the recording level.

Cleaning Your Unit
Clean the cabinet, panel and controls with a soft cloth lightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder or solvent such as alcohol or benzine.

Cleaning Discs
When a disc becomes dirty, clean it with a cleaning cloth. Wipe the disc from the center out.

Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for analog discs.

If you press PEAK SEARCH before delete shuffle or program play
The unit scans the input levels of the chosen selections only.
