WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

To reduce the risk of fire, do not cover the ventilation of the apparatus with newspapers, table-cloths, curtains, etc. And do not place lighted candles on the apparatus.

To reduce the risk of fire or electric shock, do not place objects filled with liquids, such as vases, on the apparatus.

CAUTION

The use of optical instruments with this product will increase eye hazard.

Certain countries may regulate disposal of the battery used to power this product. Please consult with your local authority.

CAUTION

- INVISIBLE LASER RADIATION WHEN OPEN
- DO NOT STARE INTO BEAM OR VIEW DIRECTLY WITH OPTICAL INSTRUMENTS
- CLASS 1M INVISIBLE LASER RADIATION WHEN OPEN
- DO NOT VIEW DIRECTLY WITH OPTICAL INSTRUMENTS

The validity of the CE marking is restricted to only those countries where it is legally enforced, mainly in the countries EEA (European Economic Area).

Owner’s Record

The model number and the serial number are located at the rear of the CD player. Record these numbers in the spaces provided below. Refer to them whenever you call upon your Sony dealer regarding this product.

Model No. ___________________________
Serial No. __________________________

For customers who purchased this product in the USA

Product registration

Please register this product on line at www.sony.com/walkmanreg
<http://www.sony.com/walkmanreg>

Proper registration will enable us to send you periodic mailings about software upgrades, new products, services and other important announcements. Thank you.

If you have any questions about this product, you may call; Sony Customer Information Services Center 1-866-456-7669 or http://www.sony.com/

Declaration of Conformity

Trade Name: SONY
Model No.: D-NF430
Responsible Party: Sony Electronics Inc.
Address: 16450 W. Bernardo Dr,
San Diego, CA 92127 U.S.A.
Telephone No.: 858-942-2230

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.
Disposal of Old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

About trademarks

“WALKMAN” is a registered trademark of Sony Corporation to represent Headphone Stereo products. "WALKMAN" is a trademark of Sony Corporation.

SonicStage is a trademark of Sony Corporation.

ATRAC, ATRAC3, ATRAC3plus and ATRAC Advanced Lossless are trademarks of Sony Corporation.
Create Your Own ATRAC CDs

In addition to the regular music CDs, you can play original CDs (“ATRAC” CDs) that you created with the SonicStage software. Using SonicStage, about 30 audio CDs* can be recorded on one CD-R or CD-RW. SonicStage can be downloaded free of charge.

The following is a quick overview of how you listen to music on your ATRAC CD.

Install SonicStage on your computer.
SonicStage is a software product that takes music from audio CDs or downloaded from the Internet onto your computer to create your own original CDs. SonicStage can be downloaded from the specified site (page 39) and installed on your computer.

Create an ATRAC CD.
After selecting your favorite songs from music stored on your computer, record them on a CD-R/CD-RW using SonicStage.

Listen to them with this CD player.
You can take lots of songs wherever you go on your original CD.

• The appropriate system environment to access the Internet is required. For details, refer to the instruction manual of your computer.
• For how to install SonicStage and how to create an ATRAC CD, visit and get information from the specified site for downloading SonicStage. You can also check the SonicStage help section.

* When the total playing time of one CD (album) is estimated at 60 minutes and you are recording on a 700 MB CD-R/CD-RW at 48 kbps in ATRAC format.
Which discs can you play on this CD player?

Audio CDs:
CD-DA format CDs
CD-DA (Compact Disc Digital Audio) is a recording standard used for Audio CDs.

ATRAC CDs:
CD-R/CD-RW on which audio data compressed in the ATRAC format has been recorded*
ATRAC is the general term used to refer to Sony Corporation audio codec technologies ATRAC3, ATRAC3plus, and ATRAC Advanced Lossless**. ATRAC3 and ATRAC3plus, with their high quality compression ratio, and ATRAC Advanced Lossless**, with its no-data-loss compression, combine to provide a vast array of possibilities.

** This player is not compatible with ATRAC Advanced Lossless.

Bit rates and sampling frequencies this CD player can play are:

<table>
<thead>
<tr>
<th>Format</th>
<th>Bit rates</th>
<th>Sampling frequencies</th>
</tr>
</thead>
<tbody>
<tr>
<td>ATRAC3</td>
<td>66/105/132 kbps</td>
<td>44.1 kHz</td>
</tr>
<tr>
<td>ATRAC3plus</td>
<td>48/64/256 kbps</td>
<td>44.1 kHz</td>
</tr>
</tbody>
</table>

Information (track name, album name, artist name, etc.) of up to 62-characters can be displayed on this CD player.

MP3 CDs:
CD-R/CD-RW on which audio data compressed in the MP3 format has been recorded*

Bit rates and sampling frequencies this CD player can play are shown below. Variable Bit Rate (VBR) files can also be played.

<table>
<thead>
<tr>
<th>Format</th>
<th>Bit rates</th>
<th>Sampling frequencies</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPEG-1 Layer3</td>
<td>32 - 320 kbps</td>
<td>32/44.1/48 kHz</td>
</tr>
<tr>
<td>MPEG-2 Layer3</td>
<td>8 - 160 kbps</td>
<td>16/22.05/24 kHz</td>
</tr>
<tr>
<td>MPEG-2.5 Layer3</td>
<td>8 - 160 kbps</td>
<td>8/11.025/12 kHz</td>
</tr>
</tbody>
</table>

This CD player conforms to Version 1.0/1.1/2.2/2.3/2.4 of the ID3 tag format. ID3 tag is a format for adding certain information (track name, album name, artist name, etc.) to MP3 files. Up to 64 characters of ID3 tag information can be displayed on this CD player.

CD-Extra and Mix-Mode CDs:
CD-R/CD-RW on which CD-DA format data and CD-ROM format data are recorded together.*
If you cannot play your CD, change the “CD-EXTRA” setting (☞ page 28). Then you may play your CD.

An ATRAC CD on which audio data compressed in the MP3 format has been recorded using software other than SonicStage can also be played.

With SonicStage, you cannot create a CD on which mixed format audio data is recorded.

* Only ISO 9660 Level 1/2 and Joliet extension format discs can be played.
Music discs encoded with copyright protection technologies

This product is designed to play back discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be playable by this product.

Note on DualDiscs

A DualDisc is a two sided disc product which mates DVD recorded material on one side with digital audio material on the other side. However, since the audio material side does not conform to the Compact Disc (CD) standard, playback on this product is not guaranteed.

Difference in File structures of ATRAC CDs and MP3 CDs

ATRAC CDs and MP3 CDs consist of “files” and “groups.” A “file” is equivalent to a “track” of an audio CD. A “group” is a bundle of files and is equivalent to an “album.”

For MP3 CDs, this CD player recognizes an MP3 folder as a “group” so that ATRAC CDs and MP3 CDs can be operated in the same way.

The usable number of groups and files

• Maximum number of groups: 256
• Maximum number of files: 999

Playing order of ATRAC CDs and MP3 CDs

For ATRAC CDs, files are played in the order selected in SonicStage.

For MP3 CDs, the playing order may differ depending on the method used to record MP3 files on the disc. A “play list” which contains an MP3 file playing order can also be played.

In the following example, files are played in order of ① to ⑦.

Notes

• If ATRAC files and MP3 files are recorded on the same CD, this CD player plays the ATRAC files first.
• The playback capability of this CD player may vary depending on the quality of the disc and the condition of the recording device.
• Acceptable characters are A to Z, a to z, 0 to 9, and _ (underscore).
• On a disc that has ATRAC/MP3 files, do not save files in other formats and do not make unnecessary folders.

About ATRAC CDs

• CD-Rs/CD-RWs recorded in the ATRAC format cannot be played on your computer.

About MP3 CDs

• Be sure to add the file extension “mp3” to the file name. However, if you add the extension “mp3” to a file other than an MP3 file, the player will not be able to recognize the file properly.
• To compress a source in an MP3 file, we recommend setting the compression parameters to “44.1 kHz,” “128 kbps,” and “Constant Bit Rate.”
• To record up to the maximum capacity, set the writing software to “halting of writing.”
• To record up to the maximum capacity at one time on media that has nothing recorded on it, set the writing software to “Disc at Once.”
Precautions

On safety
- Should any solid objects or liquid fall into the CD player, unplug it and have it checked by qualified personnel before operating it any further.
- Do not put any foreign objects in the DC IN 3 V (external power input) jack.

On the CD player
- Keep the lens on the CD player clean and do not touch it. If you do so, the lens may be damaged and the CD player will not operate properly.
- Do not put any heavy object on top of the CD player. The CD player and the CD may be damaged.
- Do not leave the CD player in a location near heat sources, or in a place subject to direct sunlight, excessive dust or sand, moisture, rain, mechanical shock, unlevelled surface, or in a car with its windows closed.
- If the CD player causes interference to the radio or television reception, turn off the CD player or move it away from the radio or television.
- Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this CD player. Attempting to do so may damage the CD player. Do not use such discs.

On handling CDs
- To keep the CD clean, handle it by its edge. Do not touch the surface.
- Do not stick paper or tape onto the CD.
- Do not expose the CD to direct sunlight or heat sources such as hot air ducts. Do not leave the CD in a car parked under direct sunlight.

On headphones/earphones

Road safety
Do not use headphones/earphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headsets at high volume while walking, especially at pedestrian crossings. You should exercise extreme caution or discontinue use in potentially hazardous situations.

Preventing hearing damage
Avoid using headphones/earphones at high volume. Hearing experts advise against continuous, loud and extended play. If you experience a ringing in your ears, reduce volume or discontinue use.

Consideration for others
Keep the volume at a moderate level. This will allow you to hear outside sounds and to be considerate to the people around you.
Checking the Supplied Accessories

- AC power adaptor (1)  • Earphones (1)
  (not supplied with USA, Canadian models)

- Earphones (1)  • Remote (1)
  (for other models)

- Remote (1)
  (for D-NF430 USA, Canadian models and D-NF431 E92, 2 E19, MX2, RU6 models only*)

- AC plug adaptor (1) (for D-NF430 JED model only*)

- Operating instructions (1)
  * For the area code of the model you purchased, check the upper left side of the bar code on the package.

Note
Use only the supplied remote. You cannot operate this player with any other remote.

Connect the plug of your earphones/headphones to the remote securely.

- For D-NF430 JED model and D-NF431 1 E19 model only*

- For D-NF430 USA, Canadian models and D-NF431 E92, 2 E19, MX2, RU6 models only*

Continued
Preparing a Power Source (Dry Battery)

Be sure to remove the AC power adaptor when using the dry battery. Replace the battery with new one when the battery is depleted.
• LR6 (size AA) alkaline battery

1 Slide the OPEN switch to open the lid of your player.

2 Open the battery compartment lid inside the player.

3 Insert the LR6 (size AA) battery (not supplied) by matching the end of the battery to the diagram in the battery compartment and close the lids of the battery compartment and the player until they click into place.
To remove the battery
Remove the battery as illustrated below.

Checking the remaining power of the battery
The remaining power of the battery is indicated in the display as shown below. As the black indicator section decreases, the remaining power is depleted further.

- \[\text{G-PROTECTION}\]
- “Low Battery” *

* Beep sounds.

When the battery is depleted, replace it with a new one.

Notes
- The display shows the approximate battery power remaining. For example, one section does not always indicate one-fourth of the battery power.
- Depending on the operating conditions, the display may increase or decrease relative to the actual power remaining.

1) Measured value using the JEITA (Japan Electronics and Information Technology Industries Association)
Playing time shown is approximate hours, when you use the player on a flat and stable surface and “POWER SAVE” is set to “ON” (page 28). This value varies depending on how the player is used.
2) Recorded at 48 kbps
3) Recorded at 128 kbps

Notes on dry batteries
- Do not throw the batteries into a fire.
- Do not carry batteries in a pocket, etc. with coins or other metallic objects. The battery can generate heat if its positive and negative terminals are accidentally allowed to come into contact with a metallic object.
- Do not mix new batteries with old ones.
- Do not use different types of batteries together.
- When the batteries are not to be used for a long time, remove them.
- If battery leakage occurs, wipe off any deposit left in the battery compartment, and install new batteries. If the deposit adheres to your skin, wash it off thoroughly.
**When using the AC power adaptor**

You can use the player powered by the AC power adaptor without the battery.

1. Connect the AC power adaptor to the DC IN 3 V jack of your CD player and an AC outlet.

**Notes on the AC power adaptor**

- Disconnect all power sources when the player is not to be used for a long time.
- Use only the AC power adaptor supplied. If your player is not supplied with an AC power adaptor, use an AC-E30HG AC power adaptor*. Do not use any other AC power adaptor. It may cause a malfunction.

* Not available in Australia and some other regions. Ask your dealer for detailed information.

- Do not touch the AC power adaptor with wet hands.
- Connect the AC power adaptor to an easily accessible AC outlet. Should you notice an abnormality in the AC power adaptor, disconnect it from the AC outlet immediately.

**For models with a voltage selector in the supplied AC power adaptor**

Before using the AC power adaptor, set it to the voltage of the local AC power supply, “100 V - 120 V” or “220 V - 240 V”.

1. Use a screwdriver to turn the rotary switch.

**For models supplied with the AC plug adaptor**

If the AC power adaptor does not fit the wall outlet, use the AC plug adaptor.
Playing a CD

1 Slide the OPEN switch to open the player lid.
   Connect the headphones/earphones to the player beforehand.

2 Place the CD on the tray and close the lid.

3 Press ►II on the jog lever.
   (disc) moves, and the player starts playback.

4 Adjust the volume by flicking the jog lever toward VOL + or –.
   Flick toward VOL +
   Flick toward VOL –

On the remote:
D-NF430 USA, Canadian models and D-NF431 E92, 2 E19, MX2, RU6 models:
After placing the CD on the tray in step 2, press ►II and adjust the volume by pressing VOL +/–.

D-NF430 JED model and D-NF431 1 E19 model:
After placing the CD on the tray in step 2, press ►II and adjust the volume by turning VOL +/–.

To remove the CD
Remove the CD while pressing the pivot in the center of the tray.

- **< / > buttons**

- **button**
Locking the controls
(HOLD)
You can prevent accidental button presses while carrying the player by locking the controls.

1 Slide the HOLD switch on the back of the player in the direction of the arrow.
“HOLD” flashes if you press any button when the HOLD function is activated.

For the models supplied with the remote:
You can use the HOLD function for the remote and the player (on the back) separately. For example, even if the HOLD function on the player is activated, you can operate the player by using the remote unless you set HOLD on the remote to on, too.

To unlock the controls
Slide the HOLD switch in the direction opposite to that of arrow.

Searching for Your Favorite Track/File

Searching by viewing groups (File View)
On a CD such as an ATRAC CD or an MP3 CD on which a number of files are recorded, you can search for a file by checking the names of groups (except on an audio CD) or files around the file being played.

1 Press SEARCH repeatedly.
The names of groups and files around the current file appear on the display.

2 Press ▲ or ▼ to select a group.

3 Flick the jog lever toward ▲/▼ to select a file.

4 Press ▶ on the jog lever.
The file you have selected starts playing.

To cancel searching
Press ■ on the CD player.

Continued
Searching by viewing a list of groups/files (List View)
You can search for a track/file by checking the format type of the music source and the names of groups and files.

1 Press SEARCH repeatedly.

   If you play a CD on which mixed audio data has been recorded:
   The screen for selecting the format type such as “ATRAC ROOT” and “MP3 ROOT” appears first.
   Press ► on the jog lever.

2 Flick the jog lever toward ▲/▼ to select a group and press ►.

3 Flick the jog lever toward ▲/▼ to select a file.

4 Press ► on the jog lever.

   The file you have selected starts playing.

To return to the previous screen
Press ▼ or ◄ – on the CD player.

To cancel searching
Press ■ on the CD player.

Checking CD information on the display
You can check CD information on the display.
Depending on the region in which you purchased your CD player, the default language may not be “ENGLISH.” Change the LANGUAGE setting, if necessary (page 27).
When you are playing an MP3 CD containing files with an ID3 tag, ID3 tag information is displayed. (When there is no ID3 tag information, file name or group name is displayed.) (page 7)

Notes
• The characters A-Z, a-z, 0-9, and _ can be displayed on this player.
• Before playing a file, the player reads all file and group (or folder) information on the CD. “Reading” is displayed. Depending on the content of the CD, it may take some time to accomplish this reading.
• If the file does not belong to any group, “MP3 ROOT” appears on the display.
To check information on the display
Press DISPLAY/MENU repeatedly.

1) When you are playing an audio CD containing text information such as CD-TEXT, information in parentheses is displayed.
2) The displays appear only during normal play.
3) During play, “artist name” is not displayed if the disc does not have ID3 tag information. When the list of group names/file names appears on the display, “artist name” and “group name” are not displayed.
4) Bit rate and sampling frequencies are displayed. While an MP3 file made at VBR (variable bit rate) is being played, “VBR” appears on the display instead of a bit rate. In some cases, “VBR” appears halfway through playback, rather than from the beginning.
Changing Playback Options (PLAY MODE)

You can use various playback options such as selecting songs you want to listen to, and playing songs in your favorite order. For details about playback options, see page 21. You can also play songs repeatedly using the playback options you choose (repeat play, page 23).

1. Press DISPLAY/MENU until the menu screen appears.

2. Flick the jog lever toward ▲/▼ to select “PLAY MODE” and press ►II.

3. Flick the jog lever toward ▲/▼ to select the playback option.
   The default setting is “ALL” (normal play).

4. Press ►II on the jog lever.

5. When “REPEAT” appears, select “ON” or “OFF” and press ►II on the jog lever.

To return to normal play
Select “ALL” in the PLAY MODE menu.
### Playback options (PLAY MODE)

*An m3u play list is a file in which an MP3 file playing order has been encoded. To use the play list function, record MP3 files on a CD-R/CD-RW using encoding software that supports the m3u format. You can play the top 8 lists (listed by file name) on your screen on the CD player.*

---

*Continued*
Press DISPLAY/MENU until the menu screen appears.

Flick the jog lever toward \(\wedge/\vee\) to select “PLAY MODE,” and press ➤II on the jog lever.

Flick the jog lever toward \(\wedge/\vee\) to select “BOOKMARK,” and then press ➤II.

When “REPEAT” appears, select “ON” or “OFF” and press ➤II.

To remove Bookmarks
During play of a track with a Bookmark, press and hold ➤II on the jog lever until \(\wedge/\vee\) disappears.

Notes
• If you try to add Bookmarks to tracks on an 11th CD (on a 6th CD* when playing ATRAC CDs/MP3 CDs), the Bookmarks of the CD you played first will be erased.
• All Bookmarks stored in memory will be erased if you remove all power sources.

* When each CD has 513 tracks or more.

Playing your favorite play lists (m3u play list play)

In step 3 of “Changing Playback Options (PLAY MODE)” (☞ page 20), select “PLAYLIST.”

Flick the jog lever toward \(\wedge/\vee\) to select a play list.

Press ➤II on the jog lever.

Playing groups

1 Perform steps 1 and 2 of “Changing Playback Options (PLAY MODE)” (☞ page 20). In step 3, select “GROUP” or “GROUP SHUFFLE” and press ➤II on the jog lever.

2 Flick the jog lever toward \(\wedge/\vee\) to select a group.

If you select a group on an MP3 CD, etc. by searching through all the directories, press ◀◀ or ▶▶.
If you select a group within the same directory, flick the jog lever toward \(\wedge/\vee\).

3 Press ➤II on the jog lever for 2 seconds or more.

The player starts playback of all files in the group you have selected.

4 When “REPEAT” appears, select “ON” or “OFF” and press ➤II on the jog lever.

Note
If the group has no tracks, or the group is located in the lowest directory level, “Invalid” appears on the display.

Playing your favorite tracks (Bookmark play)

1 During play of the track to which you want to add a Bookmark, press ➤II on the jog lever until \(\wedge/\vee\) flashes slowly.

2 If you want to add a Bookmark to two or more tracks, repeat step 1.

You can add Bookmarks to up to 10 CDs for audio CDs (up to 99 tracks for each CD) and up to 5 CDs* for ATRAC CDs/MP3 CDs (up to 999 tracks for each CD).

3 Press DISPLAY/MENU until the menu screen appears.

4 Flick the jog lever toward \(\wedge/\vee\) to select “PLAY MODE,” and press ➤II.

5 Flick the jog lever toward \(\wedge/\vee\) to select “BOOKMARK,” and then press ➤II.

6 When “REPEAT” appears, select “ON” or “OFF” and press ➤II.

To remove Bookmarks
During play of a track with a Bookmark, press and hold ➤II on the jog lever until \(\wedge/\vee\) disappears.

Notes
• If you try to add Bookmarks to tracks on an 11th CD (on a 6th CD* when playing ATRAC CDs/MP3 CDs), the Bookmarks of the CD you played first will be erased.
• All Bookmarks stored in memory will be erased if you remove all power sources.

* When each CD has 513 tracks or more.
Playing tracks in your favorite order (PGM play)

1 While the player is stopped, select “PROGRAM” in step 3 of “Changing Playback Options (PLAY MODE)” (page 20), and then press ►II on the jog lever.

2 Flick the jog lever toward ▲/▼ to select a track, and press and hold ►II until display changes.
   When playing an ATRAC CD/MP3 CD:
   You can also select a file in another group by pressing ‡+ or ‡−.

3 Repeat step 2 to select tracks in your favorite order.
   You can select up to 64 tracks.
   When you finish entering the 64th track, the track number selected first (audio CD)/file name (ATRAC CD/MP3 CD) appears on the display.
   If you select 65 tracks or more, the tracks selected first are erased one by one.

4 Press ►II on the jog lever.
   Playback starts in the selected order.

To check the program
1 While the player is stopped, select “PROGRAM” in step 3 of “Changing Playback Options (PLAY MODE)” (page 20), and then press and hold ►II on the jog lever until the display changes.
2 On the player, whenever you press and hold ►II, the tracks are displayed in playing order.

Playing tracks repeatedly (Repeat play)

1 Select “ON” in step 5 of “Changing Playback Options (PLAY MODE)” (page 20).
   The playback option you have selected repeats.

To return to normal play
Select “OFF.”
Changing Sound Quality

For details about the setting of SOUND items, see page 25.

Selecting the sound quality
You can set up the “EQUALIZER” setting and/or “CLEARBASS” setting. If you set both at the same time, you can enjoy more bass sound along with the sound quality you want.

1 Press DISPLAY/MENU until the menu screen appears.

2 Flick the jog lever toward ▲/▼ to select “SOUND” and press ►II.

3 Flick the jog lever toward ▲/▼ to select the item you want to set up and press ►II.

4 Flick the jog lever toward ▲/▼ to select an option and press ►II.

Customizing sound quality
You can adjust sound quality for each frequency range individually, checking the shape of the wave on the display.

1 Select “EQUALIZER” in step 3 and “CUSTOM” in step 4 of “Selecting the sound quality.”

2 Press ◄ or ►► for 2 seconds or more to select the frequency range.

   ![Frequency range]

   “Low” is displayed first. There are 3 frequency ranges; “Low” (low range audio), “Mid” (middle range audio), and “High” (high range audio).

3 Press ◄ or ►► repeatedly to select the shape of the wave.

   There are 3 shapes stored in memory for each frequency range.

4 Flick the jog lever toward ▲/▼ to select the sound volume.

   The sound volume can be adjusted in 7 levels.

5 Repeat steps 2 to 4 to make adjustments for the remaining 2 frequency ranges, and then press ►II on the jog lever.

To return to the previous screen
Press ■ on the CD player.

To cancel the adjustment operation
Press ■ on the CD player for 2 seconds or more.

Notes
- If the sound is distorted by your sound settings when you turn up the volume, turn the volume down.
- If you feel a difference in sound volume between the “CUSTOM” sound setting and other sound settings, adjust the volume to your preference.
**SOUND items 🎵**

To return to the previous screen, press ■ on the CD player. To cancel the setting operation, press ■ on the CD player for 2 seconds or more.

**Note**

If you change the setting of the EQUALIZER item after you have set the CLEARBASS item, the setting of the EQUALIZER item gets priority.

When you set both the EQUALIZER item and the CLEARBASS item, set the EQUALIZER item first.
Changing Optional Settings

For details about the setting of OPTION items, see page 27.

Setting various functions

You can set the various functions such as the language for the menu and the playback order of the groups/files.

1. Press DISPLAY/MENU until the menu screen appears.

2. Flick the jog lever toward ▲/▼ to select “OPTION” and press ►II.

3. Flick the jog lever toward ▲/▼ to select the item you want to set up and press ►II.

4. Flick the jog lever toward ▲/▼ to select an option and press ►II.

When you are setting the “LANGUAGE” or “PLAY ORDER,” repeat step 4.
**OPTION items**

To return to the previous screen, press ■ on the CD player. To cancel the setting operation, press ■ on the CD player for 2 seconds or more.

Listening to the Radio

You can enjoy FM and AM programs.

1 Press RADIO ON/BAND•MEMORY (RADIO ON/BAND on the remote) to turn on the radio.

2 Press RADIO ON/BAND•MEMORY (RADIO ON/BAND on the remote) until the band you want appears. Each time you press the button, the display changes as follows:
   USA and Canadian models: 
   - FM → AM → TV → WB
   Other models: FM → AM

3 Press TUNE + or – (TUNE + or – on the remote) to tune in the station you want and adjust the volume.

Turning off the radio
Press ■ • RADIO OFF.

Tuning in the station quickly
Press and hold TUNE + or – (TUNE + or – on the remote) in step 3 until the frequency digits begin to change on the display. The CD player automatically scans the radio frequencies and stops when it finds a clear station.

Emphasizing the bass sound
1 While listening to the radio, press DISPLAY/MENU until the menu screen appears.
2 Flick the jog lever toward ▲/▼ to select “SOUND,” then press ►II.
3 Press ►II to select “BASS.”
4 Flick the jog lever toward ▲/▼ to select “ON,” then press ►II to enter the selection.

Improving broadcast reception
For FM, extend the earphones cord.

For AM, reorient the CD player itself.

Note
Keep the earphones connected to the ○ jack of the CD player. The earphones cord works as the FM antenna.

If it is hard to hear the FM/TV/WB broadcast due to interference from strong radio waves
1 While listening to the radio, press DISPLAY/MENU until the menu screen appears.
2 Flick the jog lever toward ▲/▼ to select “OPTION,” then press ►II.
3 Flick the jog lever toward ▲/▼ to select “LOCAL/DX,” then press ►II.
4 Flick the jog lever toward ▲/▼ to select “LOCAL,” then press ►II.

Continued →
If it is hard to hear the FM broadcast due to poor reception

1. While listening to the radio, press DISPLAY/MENU until the menu screen appears.
2. Flick the jog lever toward ∨/∧ to select “OPTION,” then press ►II.
3. Flick the jog lever toward ∨/∧ to select “MONO/STEREO,” then press ►II.
4. Flick the jog lever toward ∨/∧ to select “MONO,” then press ►II.

The noise will be reduced but the radio will play in monaural.

Protecting your hearing
The AVLS (Automatic Volume Limiter System) function keeps the maximum volume down to protect your hearing.

1. While listening to the radio, press DISPLAY/MENU until the menu screen appears.
2. Flick the jog lever toward ∨/∧ to select “OPTION,” then press ►II.
3. Flick the jog lever toward ∨/∧ to select “AVLS,” then press ►II.
4. Flick the jog lever toward ∨/∧ to select “ON,” then press ►II.

To cancel the AVLS function
Perform steps 1 - 4, changing the AVLS setting to “OFF.”

Turning off the radio automatically
You can set the radio to turn off automatically within a range of 1 minute to 99 minutes by 1 minute.

1. While listening to the radio, press DISPLAY/MENU until the menu screen appears.
2. Flick the jog lever toward ∨/∧ to select “OPTION,” then press ►II.
3. Flick the jog lever toward ∨/∧ to select “TIMER,” then press ►II.
4. Flick the jog lever toward ∨/∧ to select the length of time you want to set from “1 min” to “99 min,” then press ►II.

To check the length of time before the radio is automatically turned off
During play, perform steps 1 - 4.

To cancel the TIMER function
The TIMER function for the radio will be canceled:
• When you select “OFF” in step 4 of “Turning off the radio automatically.”
• When you turn off the radio.
• When you start playing a CD.

When listening to the radio on the battery
If you connect the external power source plug to the DC IN 3 V jack of your CD player, the CD player will turn off. Turn it on by pressing RADIO ON/BAND•MEMORY to continue listening to it.
Presetting Radio Stations

You can preset up to 51 stations (for USA and Canadian models): 7 for TV, 4 for WB, 30 for FM and 10 for AM or 40 stations (for other models): 30 for FM and 10 for AM.

1. Press RADIO ON/BAND•MEMORY to turn on the radio.

2. Press RADIO ON/BAND•MEMORY to select the band.

3. Press SEARCH for 3 seconds or more.
   The CD player starts scanning the stations from the lower frequencies and stops for about 5 seconds when a station is received.

4. If you want to preset the received station, press ►II until the preset number appears.
   The received station is preset on the preset number 1 and the CD player starts scanning for the next receivable station. If you do not press ►II within 5 seconds, the CD player will start scanning the next receivable station without storing the station.

5. Repeat step 4 until all receivable stations are preset.
   If the stations have already been stored, the newly preset stations will replace the old ones.

Note
Presetting will not be completed until scanning of all receivable stations is finished. If you cancel presetting before scanning of all receivable stations is finished, the stations you preset are not stored in the CD player's memory.

Presetting stations manually

1. Press RADIO ON/BAND•MEMORY to turn on the radio.
2. Press RADIO ON/BAND•MEMORY to select the band.
3. Press TUNE + or – to tune in the station you want.
4. Press and hold RADIO ON/BAND•MEMORY until the preset number appears on the display.

   ![Preset-01
   FM 87.50 MHz](image)

   When the station is preset successfully, the beep is heard. The preset number increases by one.

5. Repeat steps 3 and 4 when you preset the stations in the same band.
   When you preset the stations in the different band, press RADIO ON/BAND•MEMORY to select the band. Repeat steps 3 and 4 until the preset number appears on the display.

Note
Preset number is selected automatically. You cannot select the preset number.
To change a preset station
1 Perform steps 1 and 2 of “Presetting stations manually” ( page 31).
2 Press ← or ➤ to select the preset number of the station you want to change.
3 Press RADIO ON/BAND•MEMORY for 2 seconds or more.

<table>
<thead>
<tr>
<th>Preset No.</th>
<th>01</th>
</tr>
</thead>
<tbody>
<tr>
<td>FM</td>
<td>87.50 MHz</td>
</tr>
</tbody>
</table>

4 Press TUNE + or – to tune in the station you want.
Start this operation within 30 seconds after you finished the previous operation.
If 30 seconds pass with nothing done, start from step 2.
5 Press and hold ➤. The beep is heard and the preset station has been changed.

To cancel a preset station
1 Perform steps 1-3 of “To change a preset station.”
2 Press ■•RADIO OFF for 2 seconds or more.
The preset station is canceled, and the next preset number decreases by one.

To cancel all preset stations
1 While the radio is turned off and CD play is stopped, press DISPLAY/ MENU until the menu screen appears.
2 Flick the jog lever toward ∧∨ to select “OPTION,” then press ➤.
3 Flick the jog lever toward ∧∨ to select “PRESET CLEAR,” then press ➤.
“CLEAR?” appears in the display. When you press ➤, all the preset stations are canceled.
Playing Preset Radio Stations

You can tune in the station easily by pressing \[ \text{ or } \text{ button.

1. Press RADIO ON/BAND•MEMORY to select the band.

2. Press \[ or ] to tune in a stored station.

Changing the Tuning Interval (Except European models)

When using the CD player abroad, change the AM tuning interval on the menu, if necessary. 9 kHz area: Asia and Europe 10 kHz area: the U.S.A., Canada and Latin America

Change it while the radio is turned off and CD play is stopped, as follows.

1. Press DISPLAY/MENU until the menu screen appears.

2. Flick the jog lever toward \( \text{ to select “OPTION,” then press } \).

3. Flick the jog lever toward \( \text{ to select “TUNE_STEP,” then press } \).

4. Flick the jog lever toward \( \text{ to select “AREA1,” “AREA2,” or “AREA3,” then press } \).

Note

After changing the tuning interval, you need to preset radio stations again.
# Troubleshooting

Should any problem persist after you have checked these symptoms, consult your nearest Sony dealer.

¹) D-NF430 USA, Canadian, JED models and D-NF431 models.
Maintenance

To clean the casing
Use a soft cloth slightly moistened in water or a mild detergent solution. Do not use alcohol, benzine or thinner.

Specifications

CD player
System
Compact disc digital audio system

Laser diode properties
Emission duration: Continuous
Laser output: Less than 44.6 µW
(This output is the value measured at a distance of 200 mm from the objective lens surface on the optical pick-up block with 7 mm aperture.)

D-A conversion
1-bit quartz time-axis control

Frequency response
20 - 20 000 Hz $\pm 1$ dB (measured by JEITA)

Output
Headphones (stereo minijack)
Approx. 15 mW + Approx. 15 mW at 16 Ω
(Approx. 1 mW + Approx. 1 mW at 16 Ω)*
* For the area code “CED” model.
For the area code of the model you purchased, check the upper left side of the bar code on the package.

Radio

This warranty is only valid in Canada.

LIMITED WARRANTY

Sony of Canada ("Sony") warrants this product (including any accessories) against defects in material or workmanship as follows:

1. LABOUR: For a period of 90 days from the date of purchase, if this Product is determined to be defective, Sony will repair or replace the Product, at its option, at no charge, or pay the labour charges to any Sony authorized service facility. After the Warranty Period, you must pay for all labour charges.

2. PARTS: In addition, Sony will supply, at no charge, new or rebuilt replacements in exchange for defective parts for a period of one (1) year. After 90 days from the date of purchase, labour for removal and installation is available from Sony authorized service facilities or a Sony Service Centre at your expense.

You can extend the warranty period for an additional nine months by registering your product (www.sonystyle.ca). Once you register your product, the limited warranty period is twelve months from the original date of purchase from Sony or a Sony authorized dealer. The ninety (90) day warranty period is extend-able only to the original purchaser, for an additional period of nine (9) months, for a total of twelve (12) months from the date of purchase when the Product is registered electronically. After the applicable period you must pay for all parts and labour charges.

To obtain warranty service, you must take the Product, or deliver the Product freight prepaid, in either its original packaging or packaging affording an equal degree of protection, to any authorized Sony service facility.

This warranty does not cover customer instruction, installation, set up adjustments or signal reception problems.

This warranty does not cover cosmetic damage or damage due to acts of God, accident, misuse, abuse, negligence, commercial use, or modification of, or to any part of the Product, including the antenna. This warranty does not cover damage due to improper operation or maintenance, connection to improper voltage supply, or attempted repair by anyone other than a facility authorized by Sony to service the Product. This warranty does not cover Products sold AS IS or WITH ALL FAULTS, or consumables (such as fuses or batteries). This warranty is valid only in Canada.

Proof of purchase in the form of a bill of sale or receipted invoice which is evidence that the unit is within the Warranty period must be presented to obtain warranty service.

This warranty is invalid if the factory-applied serial number has been altered or removed from the Product.

REPAIR OR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER. SONY SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTY ON THIS PRODUCT. EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS PRODUCT IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY.

Some provinces do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from province to province.

For your convenience, Sony of Canada Ltd. has established telephone numbers for frequently asked questions:

To locate the service or dealer nearest you, or for service assistance or resolution of a service problem, or for product information or operation, call:

Sony Customer Information Center
