

SONY®

Maps provided courtesy of Google Maps.

STEP 5: Enjoy an online "Map View" of your photos, courtesy of the Google Maps™ mapping service.*

Map your memories.

Record the exact location of every picture you take with the Sony® GPS Unit.

*Map coverage scale may differ depending on area. The online map service is currently provided courtesy of Google, and it is subject to change or termination without notice. Internet connection required.

STEP 1: Turn on the Sony® GPS unit. It will begin communicating with satellites worldwide to determine your precise global position.

STEP 2: Once the GPS unit has pinpointed your location, begin taking pictures.
(compatible with virtually any camera/camcorder)

STEP 3: Back home, download your photos to your PC using the supplied Picture Motion Browser software.

STEP 4: Transfer your GPS log file to your PC via supplied USB cable. Your photos automatically get matched to your GPS log file.
