Before operating the clock radio, please read these instructions thoroughly and retain them for future reference.

Features

- Dual alarm
- Date display
- Display with adjustable brightness
- Adjustable legs to change the angle of the unit
- Forward/reverse time setting
- Full power backup to keep the clock and the alarm (radio and buzzer) during a power interruption with a 6F22 battery (not supplied) installed

Installing the Battery

To keep good time, your clock radio needs one 6F22 battery (not supplied), in addition to house current. The battery keeps the clock operating in the event of a power interruption. Before setting the time on your clock radio, open the lid at the bottom of the unit, install the battery with correct polarity and then close the lid.

- After a power interruption, the displayed time may not be always correct. (It may gain or lose about 10 minutes per hour.)

Knowing When To Replace the Battery

- To check battery power, unplug the power cord from the wall outlet and plug it in again after a few minutes. If the displayed time is incorrect, replace the battery with a new one.
