

## **Note on the voice e-mail message function of the Memory Stick Voice Editor**

You can use the following e-mail software with the Memory Stick Voice Editor. By setting the software as “your default mail client,” you can start it from the Memory Stick Voice Editor window:

- Microsoft Outlook Express 5.0/5.5/6.0
- Microsoft Outlook 2000/2002
- Eudora 5.0/5.1 (Paid Mode)

When using Eudora to send a voice e-mail message, make either of the following settings:

- Select “Always” in the Eudora’s MAPI setting. (For how to make the setting, see the Eudora’s manual.)
- Upgrade the version of the Internet Explorer to 5.0 or higher.
