Quick Setup Guide

Please follow the steps to setup your TV:

1. Checking the Supplied Accessories
2. Connecting Your TV (See reverse side)
3. Running Initial Setup
4. Programming the Remote Control

Checking the Supplied Accessories

- AC power cord (1)
- AC plug holder (1)
- AC cord clamp (1)

Inserting the CableCARD™ incorrectly may result in permanent damage to the card and the TV.

Connecting Your TV

- Review the following chart to determine which diagram to use to connect the components in your system:

<table>
<thead>
<tr>
<th>For these components</th>
<th>See reverse side</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cable/antenna</td>
<td>OFF</td>
</tr>
<tr>
<td>Cable/antenna</td>
<td>ON</td>
</tr>
<tr>
<td>Cable/antenna</td>
<td>OFF</td>
</tr>
<tr>
<td>Cable/antenna</td>
<td>ON</td>
</tr>
<tr>
<td>Cable/antenna</td>
<td>OFF</td>
</tr>
<tr>
<td>Cable/antenna</td>
<td>ON</td>
</tr>
</tbody>
</table>

  - Turn off and unplug all components before making connections.
  - If you are connecting a digital cable box, you’ll need a special bi-directional splitter that’s compatible with your cable box. Contact your cable provider for details.

Running Initial Setup

1. Press POWER to turn on the TV. The Initial Setup screen appears.
2. Press or to select the on-screen display language. Then press . The message “Start auto program now?” appears.
3. Press or to select “Yes”, then press .

   Auto Program automatically creates a list of receivable channels. When finished, the lowest numbered channel is displayed.

   To run Auto Program again at a later time
   - Use the Auto Program feature in the operating instructions.

   To add individual digital channels
   - Use the Digital Channels feature in the operating instructions.

   Note
   - Auto Program may take up to 50 minutes or more to complete. A progress bar is displayed while the channel list is being created.

Programming the Remote Control

The remote control is preset to operate Sony brand video equipment.

Sony Equipment

<table>
<thead>
<tr>
<th>Programmable Code Number</th>
<th>TV/Video System</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD/VCR</td>
<td>601 (Sony Dream System)</td>
</tr>
<tr>
<td>SAT/Cable</td>
<td>801 (Sony Satellite Receiver)</td>
</tr>
</tbody>
</table>

If you have video equipment other than Sony brand that you want to control with the TV’s remote control, use the following procedures to program the remote control.

Note
- The equipment must have infrared (IR) remote capability in order to be used with this remote control.

Using the code list below, find the three-digit code number for the manufacturer of your equipment. (If more than one code number is listed, use the number listed first.)

Note
- Inserting the CableCARD™ incorrectly may result in permanent damage to the card and the TV.

Inserting Batteries into the Remote Control

Insert two size AA batteries (supplied) by matching the and on the batteries to the diagram inside the remote control’s battery compartment.

Connecting the Remote Control (RM-Y1004) (1) and size AA batteries (2)

Tips
- If more than one code number is listed, try entering them one by one until you come to the correct code for your equipment.
- If you enter a new code number, the code number you previously entered at that setting is erased.

Note
- If the remote control does not work even though you enter the code for Akai, enter the code for Sony instead.

Additional Connections

For best audio performance, connect your digital audio components using either digital optical or digital coaxial audio connections. Depending on which components are in your system, you may need to complete additional connections. For example, if you have a satellite receiver, you’ll need to connect the satellite antenna. If you have an AV receiver, you’ll need to connect speakers.

Activating CableCARD™ Service

Before you can use CableCARD™ service, you need to insert the CableCARD™ (supplied by your cable provider) and activate the service, as described right.

1. Press the DVD/VCR (FUNCTION) and RESET buttons simultaneously, or press the SAT/CABLE (FUNCTION) and RESET buttons simultaneously. The DVD/VCR and SAT/CABLE buttons flash.
2. Press the function button you want to program. To program a cable box or a satellite receiver press SAT/CABLE (FUNCTION).
3. Enter the three-digit manufacturer’s code number using the 0-9 buttons.
4. Press ENTER (center).
5. To check if the code number works, aim the TV’s remote control at the equipment and press DVD/VCR and / or SAT/CABLE (POWER) that corresponds with that equipment. If it responds, the programming is completed. If not, try using the other codes listed for that manufacturer.

Making Video Connections

Your TV includes several types of video inputs. Use the inputs that are available on your components to connect the best video performance, as described right.
Use this diagram if you have; Cable/Antenna

If you are not using a cable box or satellite receiver, connect your cable or antenna to the VCR’s RF IN jack.

If your DVD player or satellite receiver has a HDMI jack, use that instead of the video connections shown here.

If your cable box has an RF jack, use that instead of the video connections shown here.
