

About Recommended Discs and Compatibility

2004/8/20

This page contains information about the types of writable disc that can be used with the VRD-VC10.

VRD-VC10 stand alone mode (without computer) will work only with DVD+R/RW. VRD-VC10 is designed for best performance with discs produced by major disc manufacturers. In most cases, there is no problem as long as you use discs conform to the industry standard for DVD+R/RW formats. However, some of discs on the market do not meet the recognized quality and performance standards. With the rewritable drive VRD-VC10 in stand alone mode, we recommend the disc manufacturers and discs below. Furthermore, it is recommended to upgrade your drive with the latest firmware (if available) at user support web site. The latest firmware can be downloaded at <http://sony.storagesupport.com/dvdrw/vrdvc10dwn.htm>

DVD+Rs and DVD+RWs

Recommended DVD+Rs and DVD+RWs

Disc manufacturers and discs certified for operation with the VRD-VC10
