Before Use

Before first use

Be sure to read this manual before you use your Walkman for the first time.

Walkman instruction manuals

There are a wide variety of instruction manuals available in addition to this Help Guide.

How to use the operating explanations

This section explains how the operating explanations are written in this Help Guide.
Enjoying Using Your Walkman

3 steps to listening to music
This section explains how you can start enjoying using your Walkman after purchase in three simple steps.

Various ways to enjoy using your Walkman
Your Walkman can do more than simply play back music. Get to know more about various ways you can enjoy using the Walkman.
Digital Music Player

NW-E393/E394/E395

Parts and Controls

Parts and controls
This section introduces the functions of buttons, jacks, and other parts of your Walkman.
Digital Music Player

NW-E393/E394/E395

Power/Charging

**Turning the power on**
Turn on the power to start your Walkman.

**Turning the power off**
Turn off the power when not using your Walkman.

**Using the HOLD switch**
You can use the HOLD switch to prevent the buttons from being pressed and operated accidentally.

**Charging the battery**
Charge your Walkman by connecting it to a computer.

**Extending the battery life**
This section introduces various ways to reduce battery consumption such as frequently turning the power off and changing various settings.
Notes on charging the battery
This section contains various notes about charging your Walkman.

Installing Music Center for PC

About Music Center for PC
Music Center for PC is software that allows you to import content to your Windows computer, manage the content and transfer it to your Walkman.

Installing Music Center for PC
Connect your Walkman to your Windows computer and install Music Center for PC.
Digital Music Player
NW-E393/E394/E395

Installing Content Transfer

About Content Transfer
Content Transfer is software that allows you to transfer content managed with iTunes or the Finder to your Walkman.

Installing Content Transfer
Connect your Walkman to your Mac computer and install Content Transfer.
Digital Music Player

NW-E393/E394/E395

Importing Content to the Software

Importing and transferring content from media using Music Center for PC
This section explains how to import and transfer music from CDs using Music Center for PC.

Importing content on your Windows computer into Music Center for PC
You can organize a wide range of content such as music that you have already imported to your Windows computer using other software together using Music Center for PC.
Transferring Content to Your Walkman

**Transferring content using Music Center for PC**
Use Music Center for PC to transfer content or playlists that are also managed on your computer to your Walkman.

**Transferring content using Content Transfer**
Use Content Transfer to transfer content or playlists on your Mac computer or managed with iTunes to your Walkman.

**Transferring content using Explorer**
Use drag-and-drop in Windows Explorer to directly transfer content to your Walkman.

**Transferring content using the Finder**
Use drag-and-drop in the Finder to directly transfer content to your Walkman.

**Notes for transferring content such as music from your computer**
When transferring files and folders to your Walkman by drag-and-drop, you need to make sure that the default folder names remain unchanged and the hierarchy is correct.
Deleting Content from Your Walkman

Deleting content from your Walkman using Music Center for PC
Use Music Center for PC to delete content stored on your Walkman.

Deleting content from your Walkman using Content Transfer
Use Content Transfer to delete content stored on your Walkman.

Deleting content from your Walkman using Explorer
Use Windows Explorer to delete content stored on your Walkman.

Deleting content from your Walkman using the Finder
Use the Finder to delete content stored on your Walkman.
Operating with Music Center for PC

**Deleting content imported to Music Center for PC**

Use Music Center for PC to delete content imported to Music Center for PC.
Playing Music

Preparing music
You need to transfer music from your computer to your Walkman in order to listen to music on the Walkman.

Playing music
Play music that you transferred from your computer to your Walkman.

Browsing the music list screen
View the song list or album list screen.

Volume operation (Only for countries/areas complying with European Directives)
An alarm (beep) and a warning [Check the volume level] are meant to protect your ears when you turn the volume up to a level that is harmful for your ears for the first time.

Browsing the music playback screen
This section explains how to browse the information on the music playback screen.
Music playback operations

Use various operations on the music playback screen.

Searching for songs

You can quickly search a song by artist, genre, etc.

Playing playlist songs

Playlists (lists of songs to play) created using Music Center for PC can be transferred and played on your Walkman.

Choosing an album from the cover art images

You can choose an album from the cover art images in the music playback screen by registering jacket photos using Music Center for PC.
Deleting Songs

Deleting songs
Delete songs transferred to your Walkman.

4-579-798-12(1)
Copyright 2016 Sony Corporation
Music Settings

Shuffle playback
Play songs in the playback range in random order.

Repeat playback
Play songs within a playback range repeatedly.

Customizing sound quality settings
You can use various functions to set the desired sound quality.

Presetting your equalizer settings
You can preset the value of the 5 band equalizer as a custom setting.
Preparing photos

You need to transfer photos onto your Walkman from your computer in order to view them on the Walkman.

Viewing photos

You can view photos that you have transferred onto your Walkman.

Browsing the photo screen

This section explains how to view the information displayed on the photo screen.

Operations on the photo screen

You can display the next/previous photo and consecutively display photos in the photo screen.

Browsing photos using the Slide Show function

You can watch series of photos stored in your Walkman using the Slide Show function.
Deleting photos

To delete photos from your Walkman, use the software on your computer that you used to transfer the photos.
Photo Settings

**Changing the photo information display setting**
You can set your Walkman to display or not display photo information while playing back photos.

**Playing the Slide Show repeatedly**
You can repeatedly play the Slide Show.
Listening to FM Radio

Listening to FM radio
Listen to FM radio on your Walkman.

Browsing the FM radio screen
This section explains how to browse the information on the FM radio screen.

FM radio operations
Select the desired frequency or preset number on the FM radio screen.

Presetting broadcast stations automatically
You can search for and automatically preset up to 30 receivable FM broadcast stations in your area.

Presetting broadcast stations manually
You can manually preset receivable FM broadcast stations.

Deleting preset broadcast stations
You can delete preset FM broadcast stations.
FM Radio Settings

**Changing the FM radio scan sensitivity**
You can change the scan sensitivity if the FM radio reception sensitivity is too strong, causing many unwanted broadcast stations to be received.

**Setting monaural/auto for FM radio**
You can change this setting if noise occurs during FM reception.
Digital Music Player

NW-E393/E394/E395

Music Settings

Shuffle playback
Play songs in the playback range in random order.

FM Radio Settings

Changing the FM radio scan sensitivity
You can change the scan sensitivity if the FM radio reception sensitivity is too strong, causing many unwanted broadcast stations to be received.

Setting monaural/auto for FM radio
You can change this setting if noise occurs during FM reception.
Sleep Timer Settings

Setting the sleep timer

You can change the set time of the sleep timer. Your Walkman power switches off automatically at the set time.
Common Settings

Displaying your Walkman information
Display information on your Walkman, such as the model name and system software version.

Limiting the volume
You can use AVLS (Automatic Volume Limiter System) to limit the maximum volume.

Setting the operation sound
You can change the operation sounds of your Walkman.

Setting the screen off timer
You can set the time after which the screen is turned off when there are no operations. You can preserve battery power by setting this to a shorter time.

Adjusting the screen brightness
You can set the screen brightness to one of five levels. You can preserve battery power by setting this to a lower level.
Resetting to the factory settings
Reset your Walkman to the default settings.

Formatting memory
Initialize your Walkman by formatting the memory.
Language Settings

Selecting the display language

This section explains how to set the language for menus and messages.
Precautions

Notes on handling your Walkman
Important information for using your Walkman is explained.

Notes on headphones
Important notes for the headphones are explained.

Notes on the software
Important notes for the software are explained.

Maintenance of your Walkman
Important notes for cleaning your Walkman are explained.

About model names mentioned in this “Help Guide”

Depending on the country/region in which you have purchased your Walkman, some models may not be available.
Computer system requirements when connecting your Walkman

See “System requirements” for details on computer system requirements.

Battery charging

The battery might be low when you use your Walkman for the first time. Charge the battery before using the Walkman.

About images used in this “Help Guide”

The screens and illustrations shown are for reference only and may differ from the actual product or screen.

Design and specifications are subject to change without notice.
The operations of this Walkman are explained in the following instruction manuals.

- **(Startup Guide) (paper)**
  Describes the operation flow from turning your Walkman on to listening to music.

- **Instruction Manual (paper)**
  Describes the notes on use, compliance and other information.

- **Help Guide**
  You are currently viewing the Help Guide. This contains information such as explanations of Walkman operations and software.

- **Important Information**
  Contains information on trademark rights, laws, and regulations. You can read it by installing the software (supplied) on your computer.
How to use the operating explanations

This Help Guide shows icons on your Walkman as follows: [Music], [Settings]. Items such as menus on the screen are shown as follows: [Album], [Play Mode].

Press the button ( ) to select items. Press the button ( ) to confirm.

Home menu

Press and hold the button ( ) to display the Home menu.
Note

- Except for some special cases, operating explanations assume that you are starting from the Home menu. Operations may differ from the explanation in situations such as during playback of music.
- If a function or setting can be done in more than one way, the simpler method is explained.

3 steps to listening to music

Be sure to charge the battery before you use your Walkman for the first time. You can transfer music while charging the battery. You can listen to your music as soon as the transfer has completed.

1. Connect your Walkman to a computer.
   You can charge the battery by connecting your Walkman via a USB connection to a computer that is turned on and running.

2. Import music to your computer and transfer the music to your Walkman.
   **For Windows users**
   - Recommended: Install the latest version of Music Center for PC, which is available on the Internet.
     You can transfer music that you have imported from CDs to your Walkman.
• You can transfer music by drag-and-drop directly from Windows Explorer to your Walkman.

**For Mac users**
• Recommended: Install the latest version of Content Transfer, which is available on the Internet.
  You can transfer music and playlists that are managed with iTunes to your Walkman by an easy operation.
• You can transfer music by drag-and-drop directly from the Finder to your Walkman.

3. Enjoy your music!
Connect the headphones, unlock the HOLD function, and turn on your Walkman. Then simply select the music you want to listen to to start playback!

Parts and controls

This section explains the functions of buttons, jacks, and other parts of your Walkman.

1. BACK/HOME button
   Press to go up one list screen level or to return to the previous menu.
   Press and hold to display the Home menu.

2. 5-way button
   Press the ▶ button at the center to start playback, or press the ▲ / ▼ / ◄ / ► marks to navigate through the on-screen menus of your Walkman.
   There is a tactile dot on the ▶ button to help you operate the buttons without looking.

3. Headphone jack
   Insert the headphone plug until it clicks into place.
   Sound will be impaired if the headphones are not connected properly.
4. USB jack
   Connect the USB cable (supplied) or other accessories that support microUSB (not supplied).

5. Display

6. VOL (Volume) +/- button
   Press to adjust the volume.
   There is a tactile dot on the + button to help you operate the buttons without looking.

7. HOLD switch
   Set the HOLD switch to protect your Walkman against accidental operation during transportation.
   Slide the HOLD switch in the direction of the arrow (指向) to disable all operation buttons. Slide the HOLD switch to the opposite position to release the HOLD function.

8. OPTION/POWER button
   Press to display the option menu.
   Press and hold to turn your Walkman on. Press and hold again to turn your Walkman off. The screen will go blank and the power will turn off.

9. RESTART button
   Press the RESTART button with a small pin, etc. to restart your Walkman.

10. Strap hole
    Use to attach a strap (not supplied).

Charging the battery

Charge your Walkman by connecting it to a computer.

1. Connect your Walkman to a running computer via USB. The battery status icon shows 🔄 when charging is complete.

2. Disconnect your Walkman from the computer when charging is complete.

**Hint**
- For information about the time to fully charge the battery, see “Specifications.”

**Note**
- When you charge your Walkman when it has not been used for a long period of time or when you use it for the first time, your computer may not recognize it. The Walkman
should start operating normally again after charging for about 10 minutes.

- You cannot operate your Walkman when it is connected to a computer.

Extending the battery life

You can reduce battery consumption by using your Walkman as follows. For a comparison of battery life based on set effects, default settings and functions, see “Battery life.”

- Turn off the power manually.
- Set a shorter time for [Screen Off Timer].
- Adjust the screen brightness.
- Set all sound quality settings to off.

Related Topic

Notes on charging the battery

- The charging time differs depending on the battery usage conditions.
- If the battery life is reduced to about half of its normal life even if sufficiently charged, it has probably worn out. Please contact your nearest Sony dealer.
- If you charge your Walkman when it has not been used for a long period of time, your computer may not recognize it, or the Walkman may not respond. Charge the Walkman for about 10 minutes, after which it should start operating normally again.
- When the ambient temperature exceeds the recommended range, ⚠️ is displayed on the screen and charging is forcibly stopped. Charge the battery in an ambient temperature between 5 °C to 35 °C (41 ºF to 95 ºF).
- The number of times the battery can be recharged from complete discharge is approximately 500 times. This number may vary depending on the conditions under which you use your Walkman.
- To prevent battery deterioration, charge the battery at least once every six months or every year.
- Charging is not guaranteed with homebuilt or modified computers.
- Operation with a USB port extended with a USB hub is only guaranteed when a self-powered USB hub that carries an authorized logo is used.
- Do not leave your Walkman connected for an extended period of time to a laptop computer that is not connected to an AC power supply. Doing so may discharge the computer’s battery.
- Do not turn on, restart, wake up from sleep mode, or shut down the computer with your Walkman connected to the computer via USB. Doing so may cause the Walkman to malfunction. Disconnect the Walkman from the computer before conducting these operations.
- Your Walkman may become hot while charging. This is not a malfunction.
- You cannot operate your Walkman when it is connected to a computer.
- The battery indicator scales are not equal. Refer the battery indicator as a guide.
- [Do not disconnect.] is displayed when transferring data between your Walkman and the computer. Do not remove the USB cable when [Do not disconnect.] is displayed. Doing so may result in a loss of the data being transferred and data on the Walkman.

Playing music

Play music transferred to your Walkman.

1. From the Home menu, select [Music].

2. Select the desired search method and items until a song list appears, and then select the desired song.
   Playback starts and the music playback screen is displayed. To pause playback, press the button (II).

Note

- If there is no operation for an extended period while paused, your Walkman will be turned off automatically. In this case, turn on the power before performing step 1 above.
- Depending on the way of transferring songs to your Walkman, songs might be played in different order from the song order on your computer. When you specify a song order
other than that on your Walkman, edit the playlists with a function of Music Center for PC or iTunes, and then transfer them to your Walkman.

Browsing the music list screen

The music list screen displays lists such as the song list and album list.

1. Index

   The index displays a list of song or album names, along with each letter of the alphabet. Navigate the index by pressing the button (_previous_page) to move to the next or previous letters.
Hint

- The display format of the album list can be changed so that only the cover art is displayed.

Volume operation (Only for countries/areas complying with European Directives)

An alarm (beep) and a warning [Check the volume level] are meant to protect your ears when you turn the volume up to a level that is harmful for your ears for the first time. You can cancel the alarm and warning by pressing any button.

**Note**

- You can turn up the volume after canceling the alarm and warning.
- After the initial warning, the alarm and warning repeat every 20 cumulative hours that the volume is set to a level that is harmful for your ears. When this happens, the volume is turned down automatically.
- If the volume is set to a level that is harmful for your ears and you turn off your Walkman, the volume is turned down to a level that is safe for your ears automatically.
Browsing the music playback screen

The following items are displayed on the music playback screen.

1. Information area
   The playback status, remaining battery power, etc. are displayed.
2. Song title/Artist name
3. Selected search method
4. Elapsed time of current song
5. Time line bar
6. Music settings icons
   - [Bass Boost]
   - [Repeat] from the [Play Mode] settings
   - [Shuffle] from the [Play Mode] settings
• [Shuffle & Repeat] from the [Play Mode] settings
• [Repeat 1 Song] from the [Play Mode] settings

**Note**

- The elapsed time and the time line bar indications may be unstable and inaccurate when playing variable bit rate (VBR) songs.

You can set the time after which the screen is turned off when there are no operations.

1. From the Home menu, select [Settings].

2. Select [Common Settings] - [Screen Off Timer] - desired setting.

Note

- The screen does not turn off in the following situations:
  - While accessing, creating or restoring databases
  - While scanning FM radio broadcast stations
  - While presetting FM radio broadcast stations automatically
  - While playing back a Slide Show
- The screen brightness is lowered while your Walkman is connected to a computer.
Adjusting the screen brightness

You can set the display brightness to one of five levels.

1. From the Home menu, select [Settings].

**Hint**

- Regardless of the brightness setting, the brightness of the screen may be low while connecting to a computer and charging.
Notes on handling your Walkman

**Warning**

- Be sure not to short-circuit the terminals of your Walkman with metallic objects.
- Do not spill water on your Walkman or allow any foreign object to enter it. This may cause fire or electric shock. If this occurs, turn off the Walkman immediately, disconnect the Walkman from your computer, and consult your nearest Sony dealer or Sony Service Center.
- Do not place your Walkman in fire.
- Do not take apart or modify your Walkman. Doing so can result in electric shock. Consult your nearest Sony dealer or Sony Service Center for exchange of rechargeable batteries, internal checks, or repair.
- Do not put any heavy object on top of your Walkman or apply a strong shock to it. This may cause malfunction or damage.

The following descriptions are important for using your Walkman. Be sure to follow the instructions below.

- Charging time differs depending on battery usage conditions.
- If the battery life is reduced to about half of its normal life even if sufficiently charged, it has probably worn out. Please contact your nearest Sony dealer.
- Do not touch the rechargeable battery with bare hands if it is leaking. Consult your
nearest Sony dealer if the battery has leaked as battery liquid may remain in your Walkman. If the liquid gets into your eyes, do not rub your eyes as this may lead to blindness. Wash out your eyes with clean water and consult a doctor. If the liquid gets onto your body or clothes, wash it off immediately. Failure to do so may cause burns or injury. Consult a doctor if you are burned or injured by the liquid from the battery.

- Heat may build up in your Walkman while charging if it is used for an extended period of time.
- Note that condensation may form temporarily in cases such as when your Walkman is moved quickly from a low-temperature environment to a high-temperature environment, or used in a room where a heater has just been turned on. Condensation is a phenomenon where moisture in the air adheres to surfaces such as metal panels and then changes to liquid. If condensation forms in the Walkman, leave it turned off until the condensation disappears. If you use the Walkman with condensation present, a malfunction may result.
- If you use your Walkman in a cold location, images may appear with black bands around them. This is not a malfunction of the Walkman.
- If your Walkman causes interference to radio or television reception, turn the Walkman off and move it away from the radio or television.
- Mild tingling may be felt on your ears in particularly dry air conditions. This is a result of static electricity accumulated in the body, and it is not a malfunction of your Walkman. This effect can be minimized by wearing clothes made from natural materials.
- When using a strap (not supplied), be careful to avoid catching it on objects you pass by.
  Also, be careful not to swing your Walkman by the strap to avoid bumping people.
- Refrain from using your Walkman as is requested by in-flight announcements during takeoff or landing in an aircraft.
- If you see lightning or hear thunder, take off the headphones immediately and refrain from using your Walkman.
- If you experience an allergic reaction while using headphones of a Walkman model supplied with headphones, stop using it immediately and contact a doctor.
- Never use your Walkman where it will be subjected to extreme light, temperatures, humidity or vibration. For example, never leave the Walkman in a car parked in the sun or in direct sunlight. It may become discolored, distorted or damaged.
• Do not leave your Walkman in a place subject to excessive dust.
• Do not leave your Walkman on an unstable surface or in an inclined position.
• When unplugging the headphones from your Walkman, make sure to hold the headphone plug. Pulling by the headphone cord itself may damage it.
• Do not apply strong force to the surface of the display. This may cause a distortion in colors or brightness, or it may cause a malfunction of the display.
• Be sure to follow the precautions below when using your Walkman. Failure to do so may warp the casing or cause the Walkman to malfunction.
  – Do not sit down with your Walkman in your back pocket.
  – Do not put your Walkman in a bag with the headphones/earphones cord wrapped around it and subject the bag to strong impact.
• Do not expose your Walkman to water. The Walkman is not waterproof. Be sure to follow the precautions below.
  – Be careful not to drop your Walkman into a sink or other container filled with water.
  – Do not use your Walkman in humid locations or wet weather such as rain or snow.
  – Do not get your Walkman wet.
    If you touch your Walkman with wet hands or put the Walkman in a damp article of clothing, the Walkman may get wet, which may cause a malfunction.
• Sample data is pre-installed on your Walkman.
• Sample data is not installed in some countries/regions.
• If you delete the sample data, you cannot restore it, and we will not supply any replacement data.
• Sony is not responsible for incomplete recording/downloading or damaged data due to problems with your Walkman or computer.

**Notes on storing lithium-ion rechargeable batteries**

A lithium-ion rechargeable battery is built into your Walkman. When you store it for a long
period of time, be sure to follow the storage instructions below.

- Leaving a charged battery unused for a long period of time causes deterioration of the battery and results in a decrease of battery capacity. The deterioration is more severe when the battery is stored with a full charge, and is accelerated by prolonged exposure to heat such as when leaving your Walkman in a car while connected to the power port. Store the Walkman at temperatures below 35 °C (95 °F). Charging or discharging the battery to approximately 50 % of capacity before storing is also recommended.

- The battery deteriorates when left in a depleted condition. Charge the battery to approximately 50 % of capacity at least once every six to twelve months to prevent deterioration.
Digital Music Player

NW-E393/E394/E395

Notes on headphones

**Road safety**

Avoid listening with your headphones in situations where hearing must not be impaired.

**Preventing hearing damage**

Avoid using the headphones at a high volume. Hearing experts advise against continuous, loud, and extended play. If you experience a ringing in your ears, reduce the volume or discontinue use.

Do not turn the volume up high all at once, especially when using headphones. Turn up the volume gradually to avoid excessive levels hurting your ears.

**Consideration for others**

Keep the volume at a moderate level. This will allow you to hear outside sounds and to be considerate to the people around you.

**About the in-ear headphones**

The earbuds seal your ears. Therefore, be aware that there is a risk of damage to your ears or eardrums if strong pressure is applied to the earbuds or the earbuds are suddenly removed from your ears. After use, be sure to take the earbuds off your ears gently.
Notes on the software

- Copyright laws prohibit reproducing the software or the manual accompanying it, in whole or in part, or renting the software without the permission of the copyright holder.
- In no event will Sony be liable for any financial damage or loss of profits, including claims made by third parties, arising out of the use of the supplied software.
- The supplied software cannot be used with equipment other than that to which it is designated.
- Please note that, due to continued efforts to improve quality, the software specifications may be changed without notice.
- Operation of your Walkman with software other than that supplied is not covered by the warranty.
- The explanations in this manual assume that you are familiar with the basic operations of your computer.

For details on the use of your computer and operating system, please refer to the respective manuals.
Maintenance of your Walkman

- Clean your Walkman with a soft cloth, such as a cleaning cloth for eyeglasses.
- If the headphone plug is dirty, it may cause noise or sound skipping. To enjoy listening with good sound, wipe the headphone plug occasionally with a soft dry cloth.
- Should your Walkman become excessively dirty, clean it with a soft cloth slightly moistened with water or mild detergent solution, being careful not to allow water to get inside the Walkman and headphones.
- Do not use any type of abrasive pad, scouring powder, or solvent such as alcohol or benzene as doing so may damage the surface of your Walkman.

System requirements

- **Computer**
  - Windows® 10
  - Windows® 8.1
  - Windows® 7
  - Mac OS® X v10.6 or later

  Pre-installed OS only supported.

  [Compatibility mode] is not supported.

- **PC application for Windows**
  - Music Center for PC application for Windows (recommendation)
  - Internet connection
  - Hard Disk Drive/Solid State Drive: 400 MB or more of available space

- **PC application for Mac**
  - Content Transfer for Mac application for Mac (recommendation)
  - Internet connection
  - Hard Disk Drive/Solid State Drive: 30 MB or more of available space

- **Web browser:** Internet Explorer 11 or later

- **Internet:** Internet connection (for Gracenote® MusicID® service, podcast features, Store access, or online help)
Not supported by the following environments:

- Personally constructed computers or operating systems
- An environment that is an upgrade of the original manufacturer-installed operating system
- Multi-boot environment

We do not guarantee operation for all computers even if they meet the above System Requirements.

List of accessories and manuals supplied with your Walkman.

- Walkman (1)
- Headphones (1)
- USB cable (1)
- Startup Guide
- Instruction Manual
What can I do to solve a problem?

If your Walkman does not function as expected, try the following steps to resolve the issue. Before restarting your Walkman, disconnect the Walkman from your computer and check that no content such as music is being played back. Otherwise, the data may be damaged. You can then restart the Walkman safely.

1. Check the topic on the issue in “Q&A.”

2. Connect your Walkman to your computer to charge the battery. You may be able to resolve some issues by charging the battery.

3. Press the button (Restart) with a pen or paper clip, etc. to restart your Walkman.

4. Check information on the issue in the help of the software having problems.

5. Look up information on the issue on one of the customer support websites.

6. If the approaches listed above fail to resolve the issue, consult your nearest Sony Help Center.
Note

- Data will not be deleted, nor will any settings be changed by restarting.

Related Topic

Your Walkman does not operate or the power does not turn on.

- If you transfer a lot of content such as music to your Walkman at once, it will take time to build the database on the Walkman. Therefore, it will take more than 1 minute until the Walkman becomes operable again after you disconnect the Walkman from your computer.
- If the HOLD switch is set to the HOLD position, slide the switch to the opposite position.
- If your Walkman contains moisture condensation, wait a few hours to let the Walkman dry out.
- If the remaining battery power is low or insufficient, charge the battery.
- You cannot operate your Walkman while it is connected to a computer. Disconnect the Walkman from the computer.
- If your Walkman still does not operate after charging the battery, press the RESTART button with a pen or a paper clip, etc., to restart the Walkman.
Parts and controls

- Charging the battery
- Restarting your Walkman
Your Walkman does not work properly.

- Your Walkman may not work properly if the USB device (e.g. computer) to which it is connected is turned on or off without disconnecting the Walkman.
  Restart your Walkman by pressing the RESTART button with a pen or a paper clip, etc.
Digital Music Player
NW-E393/E394/E395

Your Walkman power turns off or on automatically.

- If a malfunction occurs, your Walkman turns off and then on again automatically.
You want your Walkman screen to stay on longer before it turns off automatically.

- You can set the screen off timer settings in [Screen Off Timer].
A drink (water, coffee, etc.) was spilled on your Walkman, or the Walkman was washed in the washing machine.

- If you spill a drink on your Walkman or wash it in a washing machine, liquid may get inside the Walkman. Stop using the Walkman immediately and consult your nearest Sony dealer.
You want to back up the content such as music stored on your Walkman.

- Connect to a computer and copy the files onto the computer.
- If you have already deleted content transferred to your Walkman from Music Center for PC, transfer the content from the Walkman to Music Center for PC again.
Digital Music Player

NW-E393/E394/E395

You want to find the product name (model name) of your Walkman.

- The model name is the alphabetical name starting with NW that is printed on the back of your Walkman. If the Walkman is inside a case, you need to remove it from the case to find the name.
An alarm (beep) is heard and the message [Check the volume level] is displayed.

- An alarm (beep) and a warning [Check the volume level] are meant to protect your ears when you turn the volume up to a level that is harmful for your ears for the first time. You can cancel the alarm and warning by pressing any button.
- You can turn up the volume after canceling the alarm and warning.
- After the initial warning, the alarm and warning repeat every 20 cumulative hours that the volume is set to a level that is harmful for your ears. When this happens, the volume is turned down automatically.

Related Topic

- Volume operation (Only for countries/areas complying with European Directives)
There is no sound.

- Check that the volume level is not set to zero.
- Check whether the plug is inserted firmly in the headphone jack. Sound will be impaired if the headphones are not connected properly. Insert the plug until it clicks into place.
- If the plug is dirty, wipe it clean with a soft dry cloth.
- If the problem persists after performing the remedies above, use a pen or paper clip, etc., to press the RESTART button and restart your Walkman.
Digital Music Player

NW-E393/E394/E395

Content such as music suddenly stops during playback.

- The remaining battery power is low or the battery has run out.
- The content may not be supported on your Walkman. Select and play other content.

Related Topic

- Supported formats
Noise is generated.

- If using your Walkman near a device that emits radio waves such as a mobile phone, move the Walkman away from the device.
- The content such as music on your Walkman may be corrupted. Connect the Walkman to a Windows computer and use Music Center for PC or Windows Explorer to delete the content in which the noise occurred from the Walkman. If you use a Mac computer, use the Finder to delete the corrupted content. After you have deleted the corrupted content, transfer the content from the computer to the Walkman again. Do not perform any other tasks on the computer while transferring content to the Walkman. Doing so may cause the content to be corrupted.
- If the plug is dirty, wipe it clean with a soft, dry cloth.

Volume cannot be turned up, or the volume remains low when the playback volume is turned up.

- If the HOLD switch is in the HOLD position, slide it to the opposite position.
- If the AVLS (Volume Limit) setting is activated, deactivate it.
Sound can only be heard from one side of the headphones.

- Sound will not be output properly if the plug is not inserted correctly into the jack. Insert the headphone plug until it clicks into place.
- Wires inside the headphone cable may be broken due to unnecessary force, etc. being applied to the cable. If this occurs while using the supplied headphones with a Walkman model supplied with headphones, contact your nearest Sony dealer for repairs.
Sound is interrupted or skips.

- The sound may be interrupted or skip depending on the environment where your Walkman is used or the settings of the Walkman. Following the procedures below may reduce the amount of skipping or interruptions.
  - Set all sound quality settings to off.

Related Topic

- Customizing sound quality settings
The sound effect settings do not seem to have any effect.

- Sound effect settings are not applied in the following cases.
  - While listening to FM radio
You cannot charge your Walkman.

- The battery cannot be charged while ⚠️ is displayed because the protection function is engaged. Charge the battery within the ambient temperature range of 5 °C to 35 °C (41 ºF to 95 ºF).
- You need to turn the computer power on in order to charge your Walkman. Check whether the computer is in standby (sleep) or hibernation status.
- Check that the USB connection to the computer is made properly.
- There may be bad electrical contact in the connector. Disconnect your Walkman, and then reconnect it.
- Use the supplied USB cable.
- Your Walkman may not be able to connect properly to your computer when using a USB hub. Connect the Walkman directly to a USB connector on your computer.
- Check whether the operating system and operating system version installed on the computer are compatible with your Walkman.
- The battery may have deteriorated if you have not used your Walkman for more than a year. Contact your nearest Sony dealer.
- If the remedies above do not solve the problem, use a pen or paper clip, etc. to press the RESTART button and restart your Walkman, and then connect again using USB.

How long is the life of the built-in rechargeable battery?

- This will differ depending on the environment where your Walkman is used, but on average the built-in rechargeable battery can be charged approximately 500 times. The battery life becomes shorter and capacity is reduced as a result of the number of times it is recharged or used, and the environment in which it is used. When the usable battery life is half the usual time even when the battery is fully charged, the battery should be replaced.
- Consult your nearest Sony dealer for more details on the life of the built-in battery.
The rechargeable battery needs to be replaced.

- To replace rechargeable batteries, your Walkman needs to be taken apart professionally. Do not take apart the Walkman by yourself.
- Consult your nearest Sony dealer or Sony Service Center for replacement of rechargeable batteries.
The battery life is short.

- If your Walkman is used in an environment where the temperature is below 5 °C (41 °F), the battery life becomes shorter due to characteristics of the battery. This is not a malfunction.
- Charge the battery until it is full.
- You can preserve the battery life and get more use from each charge by changing your Walkman settings and managing the power appropriately.
- Depending on the environment in which your Walkman is used, the battery may deteriorate if it is not used for over a year. Contact your nearest Sony dealer.
- If the usable battery life is half that when new even after sufficiently charging the battery, your battery may have deteriorated. Contact your nearest Sony dealer.
Extending the battery life

- Customer support website
How long is the standard battery duration?

- For details on the battery duration, see “Battery life.”
How long does it take to charge the battery?

- For details on the charging time, see “Specifications.”

The computer does not recognize your Walkman.

- If the remaining battery power is low, charge the battery.
- When you use your Walkman for the first time, or if you have not used the Walkman for a long time, it may take a few minutes to be recognized by the computer. Check that the computer recognizes the Walkman after you have connected it to the computer for about 10 minutes.
- Make sure that the USB connection to the computer is made properly and securely.
- Use the supplied USB cable.
- Your Walkman may not be recognized if connected via a USB hub. Connect the Walkman directly to the USB connector on your computer.
- If the approaches listed above fail to resolve the issue, press the RESTART button with a pen or a paper clip, etc., to restart your Walkman, and then try the USB connection again.
Charging the battery

- Connecting to a computer
- Restarting your Walkman
Even if you use "Safely Remove Hardware" on the computer, [Connected USB. The player cannot be operated.] remains displayed on your Walkman screen.

- When using Windows 7, Windows 8.1 or Windows 10, the Walkman screen remains as [Connected USB. The player cannot be operated.]. This is not a problem provided that the "Safely Remove Hardware" operation is complete. Disconnect your Walkman from the computer.
You cannot install software to your computer.

- If other software is running, it may interfere with the installation. Be sure to quit all other software before installing this software. Particularly, be sure to disconnect from the Internet and quit security software as it can put a heavy load on the computer.
- There may not be enough free space on the hard drive. Check the amount of free hard drive space required to install the software, and then delete any unnecessary files.
- With a Windows computer, you may not be able to install the software if your account does not have administrator privileges or if you have not logged in as a computer administrator. Log in using an account with administrator privileges or as the computer's administrator. Furthermore, if two-byte characters are used in the user name, create a new account using only one-byte characters in the user name.
- With a Windows computer, a message dialog may be hidden by the install screen, making the install process seem stopped. Press and hold the “Alt” key while pressing the “Tab” key several times. When the dialog is displayed, follow the instructions in the dialog box.
• System requirements

• Installing Music Center for PC

• Installing Content Transfer
The progress bar on the install screen does not proceed while installing the software.

- Wait until the installation is completed, because it is progressing properly. Installation may take 30 minutes or more depending on the computer used.
Your Walkman is not recognized by Music Center for PC.

- Your Walkman may not be recognized by the computer. Disconnect the Walkman from the computer, and then reconnect it.
- The software may have failed to install correctly. Use the installer to re-install the software. The imported data will remain untouched.
- If the remedies above do not solve the problem, use a pen or paper clip, etc. to press the RESTART button and restart your Walkman, and then connect again via USB.
Content such as music cannot be transferred from the computer to your Walkman.

- Check that the USB connection to the computer is made properly.
- Use the supplied USB cable.
- You may not be able to transfer content when using a USB hub. Connect directly to the USB connector on your computer.
- The version of the installed Music Center for PC may not be the latest. Install the latest version via the Internet.
- There is not enough free space in your Walkman, or the number of files has exceeded the maximum number of transferable files. Delete any unnecessary content to increase free space. For details on the number of files recordable, see the following.
  - "Maximum recordable number of songs and time (Approx.)"
- Songs with a limited playing period or playing count may not be transferred due to restrictions set by copyright holders. For details on the settings of each audio file, contact the distributor.
- Some of the content on your Walkman may be damaged. Copy the content that you need onto the computer and initialize (format) the Walkman.
- If the software is not compatible with your Walkman, install compatible software and use the compatible software to transfer content.
- You may be attempting to transfer corrupted content. Delete the content that cannot be transferred from the computer, and import this content to the computer again. Do not perform any other tasks on the computer when transferring content to your computer.
Doing so may cause the content to be corrupted.

- You may be attempting to transfer a file that is not in playable format. See “Supported formats.”
- Transferring may be stopped due to noise such as static electricity accumulated in the computer. This happens to protect data. Disconnect your Walkman, and then reconnect it.

You cannot play content such as music transferred to your Walkman.

- If the remaining battery power is low or insufficient, charge the battery. If your Walkman still does not operate after charging the battery, press the RESTART button with a pen or a paper clip, etc. to restart the Walkman.
- The data hierarchy levels of the content such as music transferred by drag-and-drop may not be correct. Place them in the appropriate folder and hierarchy.
- Transferred files are not in a playable format. See “Supported formats” for details on playable formats.
- When you transfer audio MP4 files by drag-and-drop, place them in the “MUSIC” folder of your Walkman.
- The transferred content may be damaged. When you transfer content, make sure that no other tasks are running on your computer until transferring is completed. Otherwise, the content may be damaged. Delete the unplayable content from your Walkman and transfer it again. If the Walkman is still unable to play the content, format the built-in flash memory of the Walkman using the function of the Walkman and then transfer the content again.
- If you change the file names or location of the content such as music that was transferred from your computer to your Walkman, the content may not be recognized by the Walkman. Return it to the correct name and location.
- If you have initialized (formatted) the built-in flash memory of your Walkman using Windows Explorer, initialize (format) it again using the Walkman. If you have initialized
(formatted) the Walkman using the Mac Finder, initialize (format) it again using the Walkman.
