Note for readers of this English translation

On February 8, 2018, Sony Corporation (the “Company” or “Sony Corporation”) filed its Japanese-language Quarterly Securities Report (Shihanki Houkokusho) for the three months ended December 31, 2017 with the Director-General of the Kanto Local Finance Bureau in Japan pursuant to the Financial Instruments and Exchange Act of Japan. This document is an English translation of the Quarterly Securities Report in its entirety, except for (i) information that had been previously filed with or submitted to the U.S. Securities and Exchange Commission (the “SEC”) in a Form 20-F, Form 6-K or any other form and (ii) a description of differences between generally accepted accounting principles in the U.S. (“U.S. GAAP”) and generally accepted accounting principles in Japan (“J-GAAP”), which are required to be described in the Quarterly Securities Report under the Financial Instruments and Exchange Act of Japan if the Company prepares its financial statements in conformity with accounting principles other than J-GAAP.

Cautionary Statement

Statements made in this release with respect to Sony’s current plans, estimates, strategies and beliefs and other statements that are not historical facts are forward-looking statements about the future performance of Sony. Forward-looking statements include, but are not limited to, those statements using words such as “believe,” “expect,” “plans,” “strategy,” “prospects,” “forecast,” “estimate,” “project,” “anticipate,” “aim,” “intend,” “seek,” “may,” “might,” “could” or “should,” and words of similar meaning in connection with a discussion of future operations, financial performance, events or conditions. From time to time, oral or written forward-looking statements may also be included in other materials released to the public. These statements are based on management’s assumptions, judgments and beliefs in light of the information currently available to it. Sony cautions investors that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore investors should not place undue reliance on them. Investors also should not rely on any obligation of Sony to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Sony disclaims any such obligation. Risks and uncertainties that might affect Sony include, but are not limited to:

- (i) the global economic and political environment in which Sony operates and the economic and political conditions in Sony’s markets, particularly levels of consumer spending;
- (ii) foreign exchange rates, particularly between the yen and the U.S. dollar, the euro and other currencies in which Sony makes significant sales and incurs production costs, or in which Sony’s assets and liabilities are denominated;
- (iii) Sony’s ability to continue to design and develop and win acceptance of, as well as achieve sufficient cost reductions for, its products and services, including image sensors, game and network platforms, smartphones and televisions, which are offered in highly competitive markets characterized by severe price competition and continual new product and service introductions, rapid development in technology and subjective and changing customer preferences;
- (iv) Sony’s ability and timing to recoup large-scale investments required for technology development and production capacity;
- (v) Sony’s ability to implement successful business restructuring and transformation efforts under changing market and regulatory conditions;
- (vi) changes in laws, regulations and government policies in the markets in which Sony operates, including those related to taxation and corporate social responsibility;
- (vii) Sony’s ability to implement successful hardware, software, and content integration strategies, and to develop and implement successful sales and distribution strategies in light of new technologies and distribution platforms;
- (viii) Sony’s continued ability to devote sufficient resources to research and development and, with respect to capital expenditures, to prioritize investments correctly (particularly in the electronics businesses);
- (ix) Sony’s ability to maintain product quality and customer satisfaction with its products and services;
- (x) the effectiveness of Sony’s strategies and their execution, including but not limited to the success of Sony’s acquisitions, joint ventures and other strategic investments;
- (xi) significant volatility and disruption in the global financial markets or a ratings downgrade;
- (xii) Sony’s ability to forecast demands, manage timely procurement and control inventories;
- (xiii) Sony’s reliance on external business partners, including for the procurement of parts, components, software and network services for its products or services, the manufacturing, supply and distribution of its products, and its other business operations;

- (xiv) the outcome of pending and/or future legal and/or regulatory proceedings;
 - (xv) shifts in customer demand for financial services such as life insurance and Sony's ability to conduct successful asset liability management in the Financial Services segment;
 - (xvi) the impact of changes in interest rates and unfavorable conditions or developments (including market fluctuations or volatility) in the Japanese equity markets on the revenue and operating income of the Financial Services segment;
 - (xvii) the ability of Sony, its third-party service providers or business partners to anticipate and manage cybersecurity risk, including the risk of unauthorized access to Sony's business information, potential business disruptions or financial losses; and
 - (xviii) risks related to catastrophic disasters or similar events.
- Risks and uncertainties also include the impact of any future events with material adverse impact.

(3) Management’s Discussion and Analysis of Financial Condition, Results of Operations and Status of Cash Flows

i) Results of Operations

All amounts are presented on the basis of U.S. GAAP. “Sales and operating revenue” (“sales”) in each business segment represents sales and operating revenue recorded before intersegment transactions are eliminated. “Operating income (loss)” in each business segment represents operating income (loss) reported before intersegment transactions are eliminated and excludes unallocated corporate expenses. For details regarding each segment’s product categories and regarding business segment realignment, please refer to “IV Financial Statements – Notes to Consolidated Financial Statements – 7. Business segment information”.

Consolidated Financial Results

| | (Billions of yen) | |
|--|--------------------------------------|----------------|
| | Nine months ended December 31 | |
| | 2016 | 2017 |
| Sales and operating revenue | 5,699.6 | 6,593.0 |
| Operating income | 194.3 | 712.7 |
| Income before income taxes | 163.8 | 690.6 |
| Net income attributable to Sony Corporation’s stockholders | 45.6 | 507.6 |

Sales for the nine months ended December 31, 2017 (“the current nine months”) increased by 893.3 billion yen compared to the same period in the previous fiscal year (“year-on-year”) to 6 trillion 593.0 billion yen. This significant increase was primarily due to the impact of foreign exchange rates as well as increases in sales in all segments except for the Mobile Communications segment.

Operating income for the current nine months increased 518.4 billion yen year-on-year to 712.7 billion yen. This significant increase was primarily due to a significant improvement in the operating results in the Semiconductors segment

and the absence in the current nine months of the impairment charge of goodwill recorded in the Pictures segment in the same period of the previous fiscal year.

Operating income for the current nine months included the following:

- A gain resulting from the sale of the entire equity interest in a manufacturing subsidiary in the camera module business: 28.3 billion yen (Semiconductors segment)
- Insurance recoveries, mainly for opportunity losses related to the 2016 Kumamoto Earthquakes (the “Kumamoto Earthquakes”): 6.7 billion yen (Semiconductors segment) and 2.6 billion yen (IP&S segment)
- A gain resulting from the sale of manufacturing equipment: 6.7 billion yen (Semiconductors segment)

Operating income for the same period of the previous fiscal year included the following:

- An impairment charge of goodwill: 112.1 billion yen (962 million U.S. dollars) (Pictures segment)
- An impairment charge related to the transfer of the battery business: 32.8 billion yen (All Other)
- An impairment charge against long-lived assets, resulting from the termination of the development and manufacturing of certain high-functionality camera modules for external sale: 23.9 billion yen (Semiconductors segment)
- Net charges in expenses resulting from the Kumamoto Earthquakes: 14.9 billion yen (Semiconductors segment)
- Inventory write-downs of certain image sensors for mobile products: 8.3 billion yen (Semiconductors segment)

During the current nine months, restructuring charges, net, decreased 32.3 billion yen year-on-year to 7.1 billion yen, mainly due to the absence in the current nine months of the above-mentioned impairment charge related to the transfer of the battery business. Restructuring charges are recorded as an operating expense and are included in operating income.

Equity in net income of affiliated companies, recorded within operating income, increased 5.8 billion yen year-on-year to 7.4 billion yen.

The net effect of other income and expenses was an expense of 22.1 billion yen, an improvement of 8.5 billion yen year-on-year, mainly due to an increase in interest and dividend income.

Income before income taxes increased 526.8 billion yen to 690.6 billion yen.

During the current nine months, Sony recorded 138.5 billion yen of income tax expense, resulting in an effective tax rate of 20.1% which was lower than the effective tax rate of 49.4% in the same period of the previous fiscal year. This lower effective tax rate was mainly due to profits recorded in Sony Corporation and its national tax filing group in Japan, and in the U.S. consolidated tax filing group, both of which have established valuation allowances for deferred tax assets, compared to the losses recorded in the same period for those groups in the previous fiscal year. In addition, during the three months ended December 31, 2017, Sony recorded a 13.8 billion yen tax benefit related to deferred tax liabilities as a result of U.S. tax reform.

Net income attributable to Sony Corporation’s stockholders increased 462.0 billion yen year-on-year to 507.6 billion yen.

Operating performance by business segment for the current nine months is as follows:

Game & Network Services (G&NS)

Sales increased 231.3 billion yen to 1 trillion 499.2 billion yen, primarily due to an increase in PlayStation®4 (“PS4”) software sales including sales through the network, as well as the impact of foreign exchange rates. Operating income increased 44.8 billion yen year-on-year to 157.8 billion yen, primarily due to the impact of the above-mentioned increase in sales.

Music

The Music segment results include the yen-translated results of Sony Music Entertainment (“SME”) and Sony/ATV Music Publishing (“Sony/ATV”), both U.S.-based operations which aggregate the results of their worldwide subsidiaries on a U.S. dollar basis, and the results of Sony Music Entertainment (Japan) Inc., a Japan-based music company which aggregates its results in yen. The segment also includes equity in net income (loss) for EMI Music Publishing (“EMI”), an affiliated company accounted for under the equity method for which Sony records 39.8% of EMI’s net income in the segment’s operating income.

Sales increased 122.9 billion yen year-on-year to 593.6 billion yen, primarily due to higher Visual Media and Platform sales due to the continued strong performance of the mobile game application *Fate/Grand Order*, as well as higher Recorded Music sales due to an increase in digital streaming revenues. Operating income increased 36.5 billion yen year-on-year to 96.9 billion yen primarily due to the above-mentioned increase in sales.

Pictures

The results presented in Pictures are a yen-translation of the results of Sony Pictures Entertainment Inc. (“SPE”), a U.S.-based operation that aggregates the results of its worldwide subsidiaries on a U.S. dollar basis. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results is specified as being on “a U.S. dollar basis.”

Sales increased 109.5 billion yen year-on-year to 710.1 billion yen. This significant increase in sales was due to higher advertising and subscription revenues for Media Networks in India primarily due to the acquisition of TEN Sports Network and improved ratings, higher licensing revenues for Television Productions primarily due to various U.S. television series, and higher theatrical revenues for Motion Pictures primarily due to the strong worldwide theatrical performances of *Spider-Man: Homecoming* and *Jumanji: Welcome to the Jungle*. Operating income of 8.7 billion yen was recorded compared to an operating loss of 114.2 billion yen in the same period of previous fiscal year. This significant improvement in operating results was due to the absence of a 112.1 billion yen (962 million U.S. dollars) impairment of goodwill that was recorded in the same period of the previous fiscal year as well as the above-mentioned increase in sales.

Home Entertainment & Sound (HE&S)

Sales increased 163.4 billion yen year-on-year to 987.6 billion yen, primarily due to an improvement in the product mix of televisions reflecting a shift to high value-added models, as well as the impact of foreign exchange rates. Operating income increased 29.5 billion yen year-on-year to 93.2 billion yen, primarily due to the above-mentioned improvement in the product mix of televisions, partially offset by an increase in marketing costs and an increase in the price of key components.

Imaging Products & Solutions (IP&S)

Sales increased 68.7 billion yen year-on-year to 493.5 billion yen, mainly due to the absence in the current nine months of the impact from the Kumamoto Earthquakes that was recorded in the same period of the previous fiscal year, as well as the impact of foreign exchange rates. Operating income increased by 24.6 billion yen year-on-year to 68.1 billion yen, primarily due to the impact of the above-mentioned increase in sales.

Mobile Communications (MC)

Sales decreased 32.5 billion yen year-on-year to 570.8 billion yen, mainly due to a decrease in smartphone unit sales. Operating income decreased 8.4 billion yen year-on-year to 17.0 billion yen, mainly due to the above-mentioned decrease in sales as well as an increase in the price of key components, partially offset by reductions in operating costs.

Semiconductors

Sales increased 111.5 billion yen year-on-year to 683.6 billion yen, primarily due to a significant increase in unit sales of image sensors for mobile products as well as the absence in the current nine months of a decrease in image sensor production due to the Kumamoto Earthquakes in the same period of the previous fiscal year. Operating income of 165.4 billion yen was recorded, compared to an operating loss of 20.6 billion yen recorded in the same period of the previous fiscal year. This improvement in operating results was primarily due to the impact of the above-mentioned increase in sales, the 28.3 billion yen gain resulting from the sale of the entire equity interest in a manufacturing subsidiary in the camera module business, a 6.7 billion yen gain resulting from the sale of manufacturing equipment, as well as 6.7 billion yen in insurance recoveries related to the Kumamoto Earthquakes, each in the current nine months. Additionally, in the same period of the previous fiscal year, the Semiconductors segment operating results included the above-mentioned 23.9 billion yen impairment charge against long-lived assets relating to camera modules, net charges of 14.9 billion yen in expenses resulting from the Kumamoto Earthquakes, and 8.3 billion yen in inventory write-downs of certain image sensors for mobile products.

Financial Services

The Financial Services segment results include Sony Financial Holdings Inc. (“SFH”) and SFH’s consolidated subsidiaries such as Sony Life Insurance Co., Ltd. (“Sony Life”), Sony Assurance Inc. and Sony Bank Inc. (“Sony Bank”). The results of Sony Life discussed in the Financial Services segment differ from the results that SFH and Sony Life disclose separately on a Japanese statutory basis.

Revenue increased by 143.3 billion yen year-on-year to 955.7 billion yen, mainly due to a significant increase in net gains from investment performance in the separate account at Sony Life, resulting from favorable financial market conditions during the current nine months compared to the same period of the previous fiscal year, as well as higher insurance premiums revenue reflecting an increase in the policy amount in force. Operating income increased by 28.0 billion yen year-on-year to 139.1 billion yen, mainly due to a gain recorded on the sale of real estate held for investment purposes in the general account at Sony Life.

Operating Performance by Geographic Area

Foreign Exchange Fluctuations and Risk Hedging

Note for readers of this English translation:

Except for the information set forth below, there was no significant change from the information presented in the Foreign Exchange Fluctuations and Risk Hedging section of the Annual Report on Form 20-F filed with the SEC on June 15, 2017. Although foreign exchange rates have fluctuated during the nine-month period ended December 31, 2017, there has been no significant change in Sony's risk hedging policy as described in the Annual Report on Form 20-F.

During the current nine months, the average rates of the yen were 111.7 yen against the U.S. dollar and 128.5 yen against the euro, which were 5.1 yen and 10.4 yen lower year-on-year.

For the current nine months, sales were 6 trillion 593.0 billion yen, an increase of 15.7% year-on-year, while on a constant currency basis, sales increased approximately 11% year-on-year. For further details about the impact of foreign exchange rate fluctuations on sales and operating income, please refer to the below Note.

Consolidated operating income was 712.7 billion yen for the current nine months, an increase of 518.4 billion yen year-on-year. Most of the foreign exchange rate impact was attributable to the impact of foreign exchange rates in the G&NS, HE&S, IP&S, MC and Semiconductors segments.

The table below indicates the impact of changes in foreign exchange rates on sales and operating results of each of the above-mentioned five segments. For a detailed analysis of segment performance, please refer to the "Results of Operations" section, which discusses the impact of foreign exchange rates within segments and categories where foreign exchange rate fluctuations had a significant impact.

(Billions of yen)

| | | Nine months ended December 31 | | Impact of changes in foreign exchange rates |
|----------------|-------------------------|--|----------------|--|
| | | 2016 | 2017 | |
| G&NS | Sales | 1,268.0 | 1,499.2 | +79.4 |
| | Operating income | 113.1 | 157.8 | +13.1 |
| HE&S | Sales | 824.2 | 987.6 | +55.3 |
| | Operating income | 63.7 | 93.2 | +16.3 |
| IP&S | Sales | 424.7 | 493.5 | +22.2 |
| | Operating income | 43.5 | 68.1 | +10.2 |
| MC | Sales | 603.3 | 570.8 | +15.7 |
| | Operating income | 25.3 | 17.0 | -5.2 |
| Semiconductors | Sales | 572.0 | 683.6 | +26.6 |
| | Operating income (loss) | (20.6) | 165.4 | +15.7 |

In addition, sales for the Music segment increased 26.1% year-on-year to 593.6 billion yen, an approximate 23% increase on a constant currency basis. In the Pictures segment, sales increased 18.2% year-on-year to 710.1 billion yen, an approximate 13% increase on a U.S. dollar basis. As most of the operations in Sony's Financial Services segment are based in Japan, Sony's management analyzes the performance of the Financial Services segment on a yen basis only.

Note:

The descriptions of sales on a constant currency basis reflect sales calculated by applying the yen's monthly average exchange rates from the previous nine months to local currency-denominated monthly sales in the current nine months. For SME and Sony/ATV in the Music segment, and in the Pictures segment, the constant currency amounts are calculated by applying the monthly average U.S. dollar / yen exchange rates after aggregation on a U.S. dollar basis.

The impact of foreign exchange rate fluctuations on sales is calculated by applying the change in the yen's periodic weighted average exchange rate for the previous nine months from the current nine months to the major transactional currencies in which the sales are denominated. The impact of foreign exchange rate fluctuations on operating income (loss) is calculated by subtracting from the impact on sales the impact on cost of sales and selling, general and administrative expenses calculated by applying the same major transactional currencies calculation process to cost of sales and selling, general and administrative expenses as for the impact on sales. Additionally, the MC segment enters into its own foreign exchange hedging transactions. The impact of those transactions is included in the impact of foreign exchange rate fluctuations on operating income (loss) for that segment.

This information is not a substitute for Sony's consolidated financial statements measured in accordance with U.S. GAAP. However, Sony believes that these disclosures provide additional useful analytical information to investors regarding the operating performance of Sony.

Status of Cash Flows

Operating Activities: During the current nine months, there was a net cash inflow of 660.3 billion yen from operating activities, an increase of 347.1 billion yen year-on-year.

For all segments excluding the Financial Services segment, there was a 378.8 billion yen net cash inflow, an increase of 298.2 billion yen year-on-year. This increase was primarily due to an increase in net income after taking into account non-cash adjustments (including depreciation and amortization, other operating (income) expense, net, deferred income taxes and equity in net (income) loss of affiliated companies), as well as an increase in accrued expenses in other current liabilities. This increase in net cash inflow was partially offset by the negative impact of a larger increase in notes and accounts receivable, trade.

The Financial Services segment had a net cash inflow of 295.6 billion yen, an increase of 49.9 billion yen year-on-year. This increase was primarily due to an increase in net income after taking into account non-cash adjustments such as depreciation and amortization, including amortization of deferred insurance acquisition costs.

Investing Activities: During the current nine months, Sony used 566.9 billion yen of net cash in investing activities, a decrease of 414.6 billion yen year-on-year.

For all segments excluding the Financial Services segment, there was a net cash outflow of 141.1 billion yen, a decrease of 100.0 billion yen year-on-year. This decrease was mainly due to a decrease in payments for fixed asset purchases such as semiconductor manufacturing equipment.

The Financial Services segment used 424.8 billion yen of net cash, a decrease of 314.5 billion yen year-on-year. This decrease was mainly due to a year-on-year decrease in payments for investments and advances at Sony Life and Sony Bank.

In all segments excluding the Financial Services segment, net cash generated in operating and investing activities combined*1 for the current nine months was 237.7 billion yen, a 398.3 billion yen improvement from net cash used in the same period of the previous fiscal year.

Financing Activities: During the current nine months, there was a net cash inflow of 265.2 billion yen from financing activities, a decrease of 202.7 billion yen year-on-year.

For all segments excluding the Financial Services segment, there was a 38.1 billion yen net cash outflow, a decrease of 59.0 billion yen year-on-year. This decrease was mainly due to a year-on-year decrease in repayment of long-term debt, as well as the absence in the current nine months of the payment for the purchase of Sony/ATV shares from noncontrolling interests in the same period of the previous fiscal year. On the other hand, during the same period of the previous fiscal year, Sony raised capital from the issuance of straight bonds.

In the Financial Services segment, there was a 288.2 billion yen net cash inflow, a decrease of 262.7 billion yen year-on-year. This decrease was primarily due to a decrease in short-term borrowings at Sony Life, as well as a smaller increase in deposits from customers at Sony Bank.

Total Cash and Cash Equivalents: Accounting for the above factors and the effect of fluctuations in foreign exchange rates, the total outstanding balance of cash and cash equivalents at December 31, 2017 was 1 trillion 328.9 billion yen. Cash and cash equivalents of all segments excluding the Financial Services segment was 901.5 billion yen at December 31, 2017, an increase of 209.8 billion yen compared with the balance as of March 31, 2017, and an increase of 420.9 billion yen, compared with the balance as of December 31, 2016. Sony believes that it continues to maintain sufficient liquidity through access to a total, translated into yen, of 528.8 billion yen of unused committed lines of credit with financial institutions in addition to the cash and cash equivalents balance at December 31, 2017. Within the Financial Services segment, the outstanding balance of cash and cash equivalents was 427.4 billion yen at December 31, 2017, an increase of 159.0 billion yen compared with the balance as of March 31, 2017, and an increase of 136.4 billion yen compared with the balance as of December 31, 2016.

*1 Sony has included the information for cash flow from operating and investing activities combined, excluding the Financial Services segment's activities, as Sony's management frequently monitors this financial measure and believes this non-U.S. GAAP measurement is important for use in evaluating Sony's ability to generate cash to maintain liquidity and fund debt principal and dividend payments from business activities other than its Financial Services segment. This information is derived from the reconciliations prepared in the Condensed Statements of Cash Flows below. This information and the separate condensed presentations shown below are not required or prepared in accordance with U.S. GAAP. The Financial Services segment's cash flow is excluded from the measure because SFH, which constitutes a majority of the Financial Services segment, is a separate publicly traded entity in Japan with a significant minority interest and it, as well as its subsidiaries, secure liquidity on their own. This measure may not be comparable to those of other companies. This measure has limitations because it does not represent residual cash flows available for discretionary expenditures principally due to the fact that the measure does not deduct the principal payments required for debt service. Therefore, Sony believes it is important to view this measure as supplemental to its entire statement of cash flows and together with Sony's disclosures regarding investments, available credit facilities and overall liquidity.

A reconciliation of the differences between the Consolidated Statement of Cash Flows reported and cash flows from operating and investing activities combined excluding the Financial Services segment's activities is as follows:

| | (Billions of yen) | |

As of December 31, 2017, Sony Corporation had 2,555 employees, a decrease of 3,630 employees from 6,185 employees as of March 31, 2017. The total number of employees decreased mainly due to the separation of its IP&S business. There is no significant change in the number of employees of Sony on the consolidated basis.

v) Liquidity and Capital Resources

Note for readers of this English translation:

Except for the information related to the committed lines of credit and the issuance of unsecured straight bonds below, there was no significant change from the information presented in the Annual Report on Form 20-F filed with the SEC on June 15, 2017. The changes are indicated by underline below. Any forward-looking statements included in the descriptions below are based on management's current judgment.

<https://www.sec.gov/Archives/edgar/data/313838/000119312517203939/d358485d20f.htm>

Sony typically raises funds through straight bonds, CP programs and bank loans (including syndicated loans). If market disruption and volatility occur and Sony could not raise sufficient funds from these sources, Sony may also draw down funds from contractually committed lines of credit from various financial institutions. Sony has a total, translated into yen, of 528.8 billion yen in unused committed lines of credit, as of December 31, 2017. Details of those committed lines of credit are: a 300.0 billion yen committed line of credit contracted with a syndicate of Japanese banks, effective until July 2019, a 1.5 billion U.S. dollar multi-currency committed line of credit also with a syndicate of Japanese banks, effective until December 2018, and a 525 million U.S. dollar multi-currency committed line of credit contracted with a syndicate of foreign banks, effective until March 2018, in all of which Sony Corporation and Sony Global Treasury Services Plc are defined as borrowers. These contracts are aimed at securing sufficient liquidity in a quick and stable manner even in the event of turmoil within the financial and capital markets.

Notes to Consolidated Financial Statements (Unaudited)

Sony Corporation and Consolidated Subsidiaries

1. Summary of significant accounting policies

The accompanying consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), except for certain disclosures which have been omitted. Certain adjustments and reclassifications have been incorporated in the accompanying consolidated financial statements to conform with U.S. GAAP. These adjustments were not recorded in the statutory books and records as Sony Corporation and its subsidiaries in Japan maintain their records and prepare their statutory financial statements in accordance with accounting principles generally accepted in Japan while its foreign subsidiaries maintain their records and prepare their financial statements in conformity with accounting principles generally accepted in the countries of their domiciles.

(1) Accounting methods used specifically for interim consolidated financial statements:

Income Taxes -

Sony estimates the annual effective tax rate ("ETR") derived from a projected annual net income before taxes and calculates the interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes the income tax provision related to significant unusual or infrequent transactions. Such income tax provision is separately reported from the provision based on the ETR in the interim period in which it occurs.

(2) Reclassifications:

Certain reclassifications of the financial statements and accompanying footnotes for the nine and three months ended December 31, 2016 have been made to conform to the presentation for the nine and three months ended December 31, 2017.

2. Marketable securities and securities investments

Marketable securities and securities investments, primarily included in the Financial Services segment, are comprised of debt and equity securities for which the aggregate cost, gross unrealized gains and losses and fair value pertaining to available-for-sale securities and held-to-maturity securities are as follows:

5. Reconciliation of the differences between basic and diluted EPS

Reconciliation of the differences between basic and diluted net income attributable to Sony Corporation's stockholders per share ("EPS") for the nine and three months ended December 31, 2016 and 2017 is as follows:

| | Yen in millions | |
|--|-------------------------------|-----------|
| | Nine months ended December 31 | |
| | 2016 | 2017 |
| Net income attributable to Sony Corporation's stockholders for basic and diluted EPS computation | 45,639 | 507,620 |
| | Thousands of shares | |
| Weighted-average shares outstanding | 1,261,862 | 1,263,485 |
| Effect of dilutive securities: | | |
| Stock acquisition rights | 2,237 | 4,051 |
| Zero coupon convertible bonds | 23,962 | 23,961 |
| Weighted-average shares for diluted EPS computation | 1,288,061 | 1,291,497 |
| | Yen | |
| Basic EPS | 36.17 | 401.76 |
| Diluted EPS | 35.43 | 393.05 |

Potential shares of common stock that were excluded from the computation of diluted EPS for the nine months ended December 31, 2016 and 2017 were 8,014 thousand shares and 2,946 thousand shares, respectively. The potential shares related to stock acquisition rights were excluded as anti-dilutive for the nine months ended December 31, 2016 and 2017 when the exercise price for those shares was in excess of the average market value of Sony's common stock for the period. The zero coupon convertible bonds issued in July 2015 were included in the diluted EPS calculation under the if-converted method beginning upon issuance.

| | Yen in millions | |
|--|--------------------------------|-----------|
| | Three months ended December 31 | |
| | 2016 | 2017 |
| Net income attributable to Sony Corporation's stockholders for basic and diluted EPS computation | 19,631 | 295,897 |

| | Yen | |
| Basic EPS | 15.55 | 234.08 |
| Diluted EPS | 15.24 | 228.91 |

Potential shares of common stock that were excluded from the computation of diluted EPS for the three months ended December 31, 2016 and 2017 were 8,014 thousand shares and 2,946 thousand shares, respectively. The potential shares related to stock acquisition rights were excluded as anti-dilutive for the three months ended December 31, 2016 and 2017 when the exercise price for those shares was in excess of the average market value of Sony's common stock for the period. The zero coupon convertible bonds issued in July 2015 were included in the diluted EPS calculation under the if-converted method beginning upon issuance.

6. Commitments, contingent liabilities and other

(1) Loan commitments

Subsidiaries in the Financial Services segment have entered into loan agreements with their customers in accordance with the condition of the contracts. As of December 31, 2017, the total unused portion of the lines of credit extended under these contracts was 31,817 million yen. The aggregate amounts of future year-by-year payments for these loan commitments cannot be determined.

(2) Purchase commitments and other

Purchase commitments and other outstanding commitments as of December 31, 2017 amounted to 410,064 million yen. The major components of these commitments are as follows:

Certain subsidiaries in the Pictures segment have entered into agreements with creative talent for the development and production of motion pictures and television programming as well as agreements with third parties to acquire completed motion pictures, or certain rights therein, and to acquire the rights to broadcast certain live action sporting events. These agreements cover various periods mainly within two years. As of December 31, 2017, these subsidiaries were committed to make payments under such contracts of 118,983 million yen.

Certain subsidiaries in the Music segment have entered into contracts with recording artists, songwriters and companies for the future production, distribution and/or licensing of music product. These contracts cover various periods mainly within five years. As of December 31, 2017, these subsidiaries were committed to make payments of 78,103 million yen under such contracts.

A subsidiary in the Game & Network Services segment has entered into contracts for programming content. These contracts cover various periods mainly within two years. As of December 31, 2017, this subsidiary was committed to make payments of 33,134 million yen under such contracts.

Sony has entered into sponsorship contracts related to advertising and promotional rights. These contracts cover various periods mainly within two years. As of December 31, 2017, Sony has committed to make payments of 6,710 million yen under such contracts.

(3) Litigation

Beginning in 2009, the U.S. Department of Justice (“DOJ”), the European Commission and certain other governmental agencies outside the United States have conducted investigations relating to competition in the optical disk drives market. Sony Corporation and/or certain of its subsidiaries have been subject to these investigations. Sony understands that the investigations of several agencies, including the DOJ, have ended, and only one agency continues to investigate. However, proceedings initiated by the European Commission as a result of its investigation continue. In October 2015, the European Commission adopted a decision in which it fined Sony Corporation and certain of its subsidiaries 31 million euros; however, Sony filed an appeal against the decision with the European Union’s General Court. In addition, a number of direct and indirect purchaser lawsuits, including class actions, have been filed in certain jurisdictions in which the plaintiffs allege that Sony Corporation and certain of its subsidiaries violated antitrust laws and seek recovery of damages and other remedies. Certain of these lawsuits have been settled, including the class actions brought by the direct and indirect purchasers in the United States; however, certain other lawsuits continue. Based on the stage of the pending proceedings, it is not possible to estimate the amount of losses or range of possible losses, if any, that might ultimately result from adverse judgments, settlements or other resolution of all of these matters.

Beginning in 2011, the DOJ, the European Commission and certain other governmental agencies outside the United States conducted investigations relating to competition in the secondary batteries market. Sony Corporation and/or certain of its subsidiaries were subject to these investigations. Sony understands that the investigations by these agencies, including the DOJ and the European Commission, have ended or are no longer active. With respect to the investigation by the European Commission, in December 2016, Sony Corporation and certain of its subsidiaries reached a settlement with the European Commission to pay a fine of approximately 29.8 million euros. In addition, a number of direct and indirect purchaser lawsuits, including class actions, have been filed in certain jurisdictions in which the plaintiffs allege that Sony Corporation and certain of its subsidiaries violated antitrust laws and seek recovery of damages and other remedies. Certain of these lawsuits have been settled, including the class actions brought by the direct and indirect purchasers in the United States; however, certain other lawsuits continue. Based on the stage of the pending proceedings, it is not possible to estimate the amount of losses or range of possible losses, if any, that might ultimately result from adverse judgments, settlements or other resolution of all of these matters.

In addition, Sony Corporation and certain of its subsidiaries are defendants or otherwise involved in other pending legal and regulatory proceedings. However, based upon the information currently available, Sony believes that the outcome from such legal and regulatory proceedings would not have a material impact on Sony’s results of operations and financial position.

(4) Guarantees

Sony has issued guarantees that contingently require payments to guaranteed parties if certain specified events or conditions occur. The maximum potential amount of future payments under these guarantees as of December 31, 2017 amounted to 3,210 million yen.

7. Business segment information

The reportable segments presented below are the segments of Sony for which separate financial information is available and for which operating profit or loss amounts are evaluated regularly by the chief operating decision maker (“CODM”) in deciding how to allocate resources and in assessing performance. The CODM does not evaluate segments using discrete asset information. Sony’s CODM is its Chief Executive Officer and President.

Sony realigned its business segments from the first quarter of the fiscal year ending March 31, 2018. As a result of this realignment, the operation of the former Components segment is now included in All Other. In connection with this realignment, the sales and operating revenue and operating income (loss) of each segment for the comparable period have been reclassified to conform to the current presentation.

The Game & Network Services (“G&NS”) segment includes the manufacture and sales of home gaming products, network services businesses and production and sales of software. The Music segment includes the Recorded Music, Music Publishing and Visual Media and Platform businesses. The Pictures segment includes the Motion Pictures, Television Productions and Media Networks businesses. The Home Entertainment & Sound (“HE&S”) segment includes Televisions as well as Audio and Video businesses. The Imaging Products & Solutions (“IP&S”) segment includes the Still and Video Cameras business. The Mobile Communications (“MC”) segment includes the manufacture and sales of mobile phones and Internet-related service businesses. The Semiconductors segment includes the image sensors business. The Financial Services segment primarily represents individual life insurance and non-life insurance businesses in the Japanese market and a bank business in Japan. All Other consists of various operating activities, including the overseas disc manufacturing, recording media and battery businesses. Sony’s products and services are generally unique to a single operating segment.
