Fourth Mid-Range Plan Capital Allocation (excl. Financial Services)

*1 Amount increased because more cumulative operating cash flow was generated during the 3rd Mid-Range Plan than was anticipated at the end of the third quarter ended December 31, 2020. It also increased because of the postponement of cash outflows for strategic investments that were already decided.
 *2 Figures in the 4th Mid-Range Plan are based on IFRS. Operating cash flow includes the impact of the difference in accounting standards relating to principal payments for operating lease liabilities and the purchases and sales of content assets. Sales on a Constant Currency Basis and the Impact of Foreign Exchange Rate Fluctuations

The descriptions of sales on a constant currency basis reflect sales calculated by applying the yen's monthly average exchange rates from the same period of the previous fiscal year to local currency-denominated monthly sales in the relevant period of the current fiscal year. For Sony Music Entertainment ("SME") and Sony Music Publishing LLC ("SMP") in the Music segment, the constant currency amounts are calculated by applying the monthly average U.S. dollar / yen exchange rates after aggregation on a U.S. dollar basis.

Results for the Pictures segment are described on a U.S. dollar basis as the Pictures segment reflects the operations of Sony Pictures Entertainment Inc. ("SPE"), a U.S.-based operation that aggregates the results of its worldwide subsidiaries in U.S. dollars.

The impact of foreign exchange rate fluctuations on sales is calculated by applying the change in the yen's periodic weighted average exchange rate for the same period of the previous fiscal year from the relevant period of the current fiscal year to the major transactional currencies in which the sales are denominated. The impact of foreign exchange rate fluctuations on operating income (loss) is calculated by subtracting from the impact on sales the impact on cost of sales and selling, general and administrative expenses calculated by applying the same major transactional currencies calculation process to cost of sales and selling, general and administrative expenses as for the impact on sales. The I&SS segment enters into its own foreign exchange hedging transactions, and the impact of those transactions is included in the impact of foreign exchange rate fluctuations on operating income (loss) for that segment.

This information is not a substitute for Sony's consolidated financial statements measured in accordance with IFRS. However, Sony believes that these disclosures provide additional useful analytical information to investors regarding the operating performance of Sony.

Notes about Financial Performance of the Music, Pictures and Financial Services segments

The Music segment results include the yen-based results of Sony Music Entertainment (Japan) Inc. and the yen-translated results of SME and SMP, which aggregate the results of their worldwide subsidiaries on a U.S. dollar basis.

The Pictures segment results are the yen-translated results of SPE, which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results is specified as being on "a U.S. dollar basis".

The Financial Services segment results include Sony Financial Group Inc. ("SFGI") and SFGI's consolidated subsidiaries such as Sony Life Insurance Co., Ltd. ("Sony Life"), Sony Assurance Inc., and Sony Bank Inc. The results of Sony Life discussed in the Financial Services segment differ from the results that SFGI and Sony Life disclose separately on a Japanese statutory basis. On October 1, 2021, SFGI changed its company name from Sony Financial Holdings Inc.
